Feminisms Maggie Humm,1992 **Feminism Beyond Modernism** Elizabeth A. Flynn,2002 Community Activism and Feminist Politics Nancy Naples,2012-11-12 This collection demonstrates the diversity of women s struggles against problems such as racism violence homophobia focusing on the complex ways that gender culture race ethnicity and class shape women s political consciousness in the US **Feminisms and Educational Research** Wendy R. Kohli,Nicholas C. Burbules,2011-12-29 Feminist theory has come a long way from its nascent beginnings no longer can it be classified as liberal socialist or radical It has shaped and evolved to take on multiple meanings and forms each distinct in its own perspective and theory In *Feminisms and Educational Research* the authors explore the various forms of feminisms tracing their history and their relation to gendered knowledge and identity Unlike other books on feminism the authors do not attempt to push that a particular theory is more correct than another but rather they give a complete overview of each of the forms of feminism The authors then couple the philosophical and theoretical ideas of western feminisms with the aims and conduct of educational research exploring how they interact and influence each other Focusing on more recent feminists both in education and related disciplines the book highlights illustrative examples from research to form a basis of understanding how the different feminisms have changed education **Postnational Feminisms** Hena Ahmad,2010 *Postnational Feminisms Postcolonial Identities and Cosmopolitanism in the Works of Kamala Markandaya Tsitsi Dangarembga Ama Ata Aidoo and Anita Desai* offers a significant contribution to the field of postcolonial and Third World feminist studies It reevaluates the ways in which Third World women writers interrogate the relationship between woman and nation in the postcolonial context Hena Ahmad brings forth the concept of postnational feminism which she deploys to show how these major writers challenge the role of women as signifiers of national cultures in their works This innovative concept illuminates the ambivalence of these uniquely positioned writers as Ahmad explores the connection between postnationalism and Third World feminism **BOOK JACKET** Wendy R. Kohli,Nicholas C. Burbules,2012-07-01 The latest book in the *Philosophy Theory and Educational Research* series introduces the main philosophical and theoretical ideas of recent western feminisms as it applies to educational research Unlike other books that focus on these topics the authors present a balanced overview of the issues instead of pushing a particular perspective *Simone de Beauvoir, Philosophy, & Feminism* Nancy Bauer,2001 In the introduction to *The Second Sex* Simone de Beauvoir notes that a man never begins by establishing himself as an individual of a certain sex his being a man poses no problem Nancy Bauer begins her book by asking Then what kind of a problem does being a woman pose Bauer s aim is to show that in answering this question *The Second Sex* dramatizes the extent to which being a woman poses a philosophical problem In exploring what it might mean to philosophize as a woman Beauvoir produced a book that not only sparked the contemporary feminist movement but also Bauer argues made an important but still profoundly undervalued contribution to the philosophical tradition *Virginia*

Woolf and the Bloomsbury Avant-garde Christine Froula, 2006-09-22 Virginia Woolf and the Bloomsbury Avant Garde traces the dynamic emergence of Woolf's art and thought against Bloomsbury's public thinking about Europe's future in a period marked by two world wars and rising threats of totalitarianism. Educated informally in her father's library and in Bloomsbury's London extension of Cambridge, Virginia Woolf came of age in the prewar decades when progressive political and social movements gave hope that Europe might really be on the brink of becoming civilized as Leonard Woolf put it. For pacifist Bloomsbury heir to Europe's unfinished Enlightenment project of human rights, democratic self-governance and world peace and in E. M. Forster's words the only genuine movement in English civilization, the 1914 civil war exposed barbarities within Europe: belligerent nationalisms, rapacious racialized economic imperialism, oppressive class and sex/gender systems, a tragic and unnecessary war that mobilized sixty-five million and left thirty-seven million casualties. An avant-garde in the twentieth-century struggle against the violence within European civilization, Bloomsbury and Woolf contributed richly to interwar debates on Europe's future at a moment when democracy's triumph over fascism and communism was by no means assured. Woolf honed her public voice in dialogue with contemporaries in and beyond Bloomsbury: John Maynard Keynes and Roger Fry to Sigmund Freud, published by the Woolfs' Hogarth Press; Bertrand Russell, T. S. Eliot, E. M. Forster, Katherine Mansfield and many others, and her works embody and illuminate the convergence of aesthetics and politics in post-Enlightenment thought. An ambitious history of her writings in relation to important currents in British intellectual life in the first half of the twentieth century, this book explores Virginia Woolf's narrative journey from her first novel *The Voyage Out* through her last *Between the Acts*.

Second Skins Jay Prosser, 1998-04-07 Do we need bodies for sex? Is gender in the head or in the body? In *Second Skins*, Jay Prosser reveals the powerful drive that leads men and women literally to shed their skins and in flesh and head to cross the boundary of sex. Telling their story is not merely an act that comes after the fact; it's a force of its own that makes it impossible to forget that stories of identity inhabit autobiographical bodies. In this stunning first extensive study of transsexual autobiography, Jay Prosser examines the exchanges between body and narrative that constitute the phenomenon of transsexuality. Showing how transsexuality's somatic transitions are spurred and enabled by the formal transitions of narrative, Prosser uncovers a narrative tradition for transsexual bodies. Sex change is a plot, and thus appropriately transsexuals make for adept and absorbing authors. In reading the transsexual plot through transsexuals' own recounting, Prosser not only gives us a new and more accurate rendition of transsexuality; his book suggests transsexuality with its extraordinary conjunctions of body and narrative as an identity story that transitions across the body/language divide that currently stalls poststructuralist thought. The form and approach of *Second Skins* works to cross other important and parallel divides. In addition to analyzing transsexual textual accounts, the book includes some 30 photographic portraits of transsexuals' poignant attempts by transsexuals to present themselves unmediated to the world except by the camera. And the author does not shy from exposing himself, interjecting the personal into his theoretical discussion and close textual work.

throughout the book Prosser reads and writes his own body his purpose in that stylistic crossing to stake out transsexuality and hence this very book as his own body's narrative *Crossing Borders* Maryanne Felter, 2010 *Between Men* Eve Kosofsky Sedgwick, 1992 At the time of its first appearance in 1985 *Between Men* was viewed as an important intervention into Feminist as well as Gay and Lesbian studies It was an important book because it argued that sexuality and desire were not a historical phenomenon but carefully managed social constructs This insight that actually originated with Michael Foucault is often viewed as anti humanist or post humanist because it argues that men and women are simply the products of patriarchal power relations over which they have no control By mobilizing Foucault's theories of the history of sexuality Sedgwick re fashions Feminism and Gay and Lesbian Studies to make it seem as though Feminism and Gay and Lesbian studies are ideally situated to continue those interventions into the history of sexuality begun by Foucault **In Dora's Case** Charles Bernheimer, 1990 *The Women's Review of Books* **Thinking Through the Body** Jane Gallop, 1988 From one of our most outspoken feminist critics this collection explores various ways in which the body can be rethought of as a site of knowledge rather than as a medium to move beyond or dominate Moving between a theoretical and confessional stance Gallop explores Sade's relation to mothers both in his novels and his life Barthes's *The Pleasure of the Text* Freud's work read not as a psychological text but as a literary endeavor and from a woman's point of view and Luce Irigaray's famous *This Sex Which Is Not One* **Becoming a Heroine** Rachel M. Brownstein, 1994 Brownstein examines how the stories we read influence our notions of how we should live In fresh wonderfully nuanced readings of works by Jane Austen Charlotte Brontë George Eliot Henry James and Virginia Woolf she considers woman centered novels as rewritings of romance and analyzes the thematic links and echoes that connect these works not only to each other but to women's lives This splendidly provocative book shows how good novels intelligent heroines and careful readers are skeptical of the romantic ideal of a perfected integral self Publisher's description back cover *But Enough about Me* Nancy K. Miller, 2002 Through the memoirs of contemporaries and pieces of her autobiography Miller explores the unexpected ways that the stories of other people's lives give meaning to our own *But Enough About Me* is a group biography or even an ethnography of women primarily middle class and urban now in their fifties and sixties The book also mounts a defense of the memoir against accusations of terminal narcissism by showing how the forms of life writing memoirs diaries essays are as much about others as they are about their authors **Feminist Consequences** Elisabeth Bronfen, Misha Kavka (ed), 2001 Exploring the status of feminism in this postfeminist age this sophisticated meditation on feminist thinking over the past three decades moves away from the all too common dependence on French theorists and male thinkers and instead builds on a wide ranging body of feminist theory written by women These writings address the question Where are we going as well as Where have we come from As evidenced in the essays compiled here the multiplicity of directions available to this new feminism ranges from poststructuralist academic theory through cultural activism to re readings of law literature and representation Contributors
