Austen, **Ancient and Modern Practices of Citizenship in Asia and the West** Gregory Bracken, 2025-10-01 What does it mean to be a good citizen today What are practices of citizenship And what can we learn from the past about these practices to better engage in city life in the twenty first century Ancient and Modern Practices of Citizenship in Asia and the West Care of the Self is a collection of papers that examine these questions The contributors come from a variety of different disciplines including architecture urbanism philosophy and history and their essays make comparative examinations of the practices of citizenship from the ancient world to the present day in both the East and the West The papers comparative approaches between East and West and ancient and modern leads to a greater understanding of the challenges facing citizens in the urbanized twenty first century and by looking at past examples suggests ways of addressing them While the book's point of departure is philosophical its key aim is to examine how philosophy can be applied to everyday life for the betterment of citizens in cities not just in Asia and the West but everywhere Modern imperialism, Western overseas expansion, and its aftermath Ralph A. Austen, 1969 **Media Imperialism** Oliver Boyd-Barrett, 2014-12-01 How does control of media resources serve political and economic ends What is the impact of media concentration and monopoly in the era of technology convergence with not just traditional and new media but also consumer electronics telephony and computing industries Revisiting the classic concept of media imperialism Oliver Boyd Barrett presents a thorough retake for the 21st century arguing for the need to understand media and empires and how structures of power and control continue to regulate our access to and consumption of the media It's no longer just Disney and Dallas it's also now Alibaba Apple Facebook Google Samsung and Huawei Examining the interplay between communications industries and the hierarchies and networks of political corporate and plutocratic power in a globalized world the book explains the historical context of the relationship between media and imperialism contestation and collaboration among new media empires the passion for social justice that inspired the original theories of media and cultural imperialism and how it has been embraced by a new generation Digging deeply into the global landscape and emerging media markets to explore how media power works across transnational boundaries this book gives a clear and sophisticated argument for why media imperialism still matters **Power, Politics and International Events.** Udo Merkel, 2013-07-24 Although the event management field has grown considerably over the last decade critical social scientific studies of the international events industry are rare This book intends to help fill this void It focuses on power social and political relations conflicts and controversies in the context of international events popular

Imperialism and Idealism David L. Anderson, 1985 Combining biography with foreign policy analysis David L Anderson provides a fresh interpretation of Sino American relations in the nineteenth century The book focuses on the eight Americans who occupied the chief U S diplomatic post in China from 1861 to 1898 and personally shaped American policy toward China in the forty years before Secretary of State John Hay s Open Door Notes Their policies as Anderson explains were as varied as the eight individuals and yet at the same time were characteristically American expressing both idealistic altruism and imperialistic self interest Ultimately John Hay merged the altruism and the self interest in the Open Door Notes of 1899 and 1900 which influenced much of America s

twentieth century conduct in Asia Anderson reemphasizes Hay s role in bridging the differences that have plagued U S policy in China
