News with a View Burton St. John III,Kirsten A. Johnson,2014-01-10 Modern mainstream journalism faces a very real disturbance of its foundational premise that credible news is gathered and articulated from an objective stance This volume offers new examinations of how the traditional notion of objectivity is changing as professional journalists grapple with a rapidly evolving news terrain one that has become increasingly crowded by those with no journalistic credentials Examining historical antecedents current dilemmas international aspects and theoretical considerations contributors make the case that the journalist s impulse to hold onto objectivity and to ignore the increasing subjectivities to which citizens are attuned actually contributes to the news media s disconnect from today s news consumer Revealing how traditional journalism needs to incorporate post objective stances these essays stimulate further thought and conversation about news with a view in both theory and practice

Media Reporting James Stovall,2012-12-08 Central to the act of journalism is the act of reporting Journalism cannot exist without reporting without reporters who are willing to dig up information in all sorts of unlikely places and from all sorts of unlikely people Nothing matters in journalism without reporting That s why this book was written Students who have an interest in journalism should must understand that good reporting is the core Intelligent insightful efficient gathering of information Information that is original relevant important and useful Journalism doesn t exist

without it Reporting is hard work It is frustrating and difficult Reporters are constantly called upon to use their wit and imagination to think of where information is and who has it and then to persuade those who have it to give it up Reporters do not have subpoena power They cannot compel sources to part with their information So a reporter must sell the source on the importance of what the reporter is doing None of that is easy But reporting hard as it is can also be fun and exciting It can take a young person to places he or she would never see otherwise It can put the reporter in touch with the most interesting people on earth It gives the reporter a front row seat on the human condition It s not always a pretty picture but it is almost inevitably interesting and enlightening Media Reporting Principles and Practices of Journalism in a Multimedia World will give you some of the basic concepts of what a reporter does and how a reporter goes about the business of journalism This book is part of the Tennessee Journalism Series *Catalog of Copyright Entries.
