Studies in Torah Judaism; Modern Medicine and Jewish Law Fred Rosner,1972 *Modern Medicine and Jewish Law* Fred Rosner,1972 **Modern Medicine and Jewish Law** Fred Rosner,1972 **Abortion in Judaism** Daniel Schiff,2002-11-28 Publisher Description **The Jewish Law Annual** Bernard S. Jackson,1998-01-29 Most bioethicists concern themselves with common law when considering the mores that inform practitioners operating in the framework of medical institutions These questions are generally addressed from the perspective of secular ethics Many Jewish physicians however Contributors to this volume address medical issues such as organ transplantation physician s fees new reproductive technologies informed consent and medical confidentiality in the context of Jewish law Jewish thought is presented as of great relevance to both the history of medical ethics and contemporary medico legal issues The volume concludes with a chronicle of Jewish Law in the State of Israel and a survey of recent literature *Organ Donation and the Divine Lien in Talmudic Law* Madeline Kochen,2014-08-21 This book offers a new theory of property and distributive justice derived from Talmudic law illustrated by a case study involving the sale of organs for transplant Although organ donation did not exist in late antiquity this book posits a new way drawn from the Talmud to conceive of this modern means of giving to others Our common understanding of organ transfers as either a gift or sale is trapped in a dichotomy that is conceptually and philosophically limiting Drawing on Maussian gift theory this book suggests a different legal and cultural meaning for this property transfer It introduces the concept of the divine lien an obligation to others in need built into the definition of all property ownership Rather than a gift or sale organ transfer is shown to exemplify an owner s voluntary recognition and fulfillment of this latent property obligation *Hardness of Heart/hardness of Life* Larry Stephen Milner,2000 Infanticide is one of the most common yet least understood of all human crimes Although academic articles document isolated aspects of this problem a single unified analysis of infanticide has not been completed until now In *Hardness of Heart Hardness of Life* Larry Milner provides the first exhaustive survey of infanticide drawing on historical data from around the world He then uses this survey as a basis for investigating why infanticide has been present in every form of human society throughout history Both comprehensive and compelling this important study will intrigue students of human psychology social welfare and child abuse and will promote further research on this alarmingly overlooked atrocity [Proceedings of the 3rd World Conference on Smoking and Health, New York City, June 2-5, 1975: Steinfeld, J. ... et al.
