movements took place in the art world And those path breaking movements include Art Nouveau Cubism Expressionism Abstract Expressionism Dada Surrealism and Pop Art Orphism Social Realism Op Art Feminist art etc In fact the modern art also gave birth to a medium called photography that is taking the art world by storm in today s era Apart from photography the other art forms that are developed in the recent times include animation collage cinematography etc However modern art has no trend to categorize it but was developed after cubism in terms of abstract art i e painting and sculpture In today s era modern art is being explored in different forms such as Constructivism Suprematism Colour Field Op Art etc Basically many of the modern artists will reject the past art as they believe that those arts do not help in the development of new art forms and do not help the new artists in any way Moreover industrial revolution gave new ideas for the artists and they are evincing interest in bringing the change in the way they paint the fine arts Moreover modern art is considered to be much closer to the modern life over art in the bygone era In fact the artists portraying their views about the world is being better represented in modern art over the art in the preceding centuries There are many different kinds of art styles that are being defined during 1860 to 1960 and it is quite cumbersome for the people to find which art has actually defined the modern art The key difference between modern artists and the traditionalists is that self belief Basically art is being valued and appreciated by the people if it portrays some important values of life      **More Modern Chemical Techniques** Ralph Levinson,2001 The techniques in this book cover qualitative and quantitative determinations of elements separation systems and the structural elucidation of materials Introd      *AK130021 - MBT - MODERN BATTLE TANKS ,*
