Behind the Lines Philip Metres, 2007-05 Whether Thersites in Homer's Iliad Wilfred Owen in Dulce et Decorum Est or Allen Ginsberg in Wichita Vortex Sutra poets have long given solitary voice against the brutality of war The hasty cancellation of the 2003 White House symposium Poetry and the American Voice in the face of protests by Sam Hamill and other invited guests against the coming shock and awe campaign in Iraq reminded us that

poetry and poets still have the power to challenge the powerful Behind the Lines investigates American war resistance poetry from the Second World War through the Iraq wars Rather than simply chronicling the genre Philip Metres argues that this poetry gets to the heart of who is authorized to speak about war and how it can be represented As such he explores a largely neglected area of scholarship the poet's relationship to dissenting political movements and the nation In his elegant study Metres examines the ways in which war resistance is registered not only in terms of its content but also at the level of the lyric He proposes that protest poetry constitutes a subgenre that by virtue of its preoccupation with politics history and trauma probes the limits of American lyric poetry Thus war resistance poetry and the role of what Shelley calls unacknowledged legislators is a crucial though largely unexamined body of writing that stands at the center of dissident political movements

Making Something Happen Michael Thurston, 2003-01-14 Poetry makes nothing happen wrote W H Auden in 1939 expressing a belief that came to dominate American literary institutions in the late 1940s the idea that good poetry cannot and should not be politically engaged By contrast Michael Thurston here looks back to the 1920s and 1930s to a generation of poets who wrote with the precise hope and the deep conviction that they would move their audiences to action He offers an engaging new look at the political poetry of Edwin Rolfe Langston Hughes Ezra Pound and Muriel Rukeyser Thurston combines close textual reading of the poems with research into their historical context to reveal how these four poets deployed the resources of tradition and experimentation to contest and redefine political common sense In the process he demonstrates that the aesthetic censure under which much partisan writing has labored needs dramatic revision Although each of these poets worked with different forms and toward different ends Thurston shows that their strategies succeed as poetry He argues that partisan poetry demands reflection not only on how we evaluate poems but also on what we value in poems and therefore which poems we elevate
