Radical Dreamer Dreams Cannot Die:

Radical Dreamer Mark Wheatley, 1996-05-29 In the world of 3052 Max Wrighter dreamed of bringing education to the masses He designed the DreamNet an electronic web capable of linking its users to a dimension beyond reality a realm from which a free exchange of knowledge and experience might enlighten the world But with no means to enact the DreamNet Max sold his dream to the Owners the uberclass who ruled society Max had faith that they would make his dreams a reality He really was dreaming The Owners tailored the Net to their own ends turning it into an addictive stream of propaganda and pandering entertainment while reaping an amazing profit on its use Consumed by greed they moved too far too fast and found to their horror that someone or something was moving through the dreamstream killing DreamNet users by the score Max alone took action Severing his ties to reality he flung himself headlong into the DreamNet and found himself capable of entering the dreams of any person linked to the Net Max had become the Radical Dreamer and in doing so learned a horrible truth In order to save mankind he must find a way to destroy the DreamNet and sacrifice himself in the process **Radical**

The Proletarian Dream Sabine Hake, 2017-09-11 The proletariat never existed but it had a profound effect on modern German culture and society As the most radicalized part of the industrial working class the proletariat embodied the critique of capitalism and the promise of socialism But as a collective imaginary the proletariat also inspired the fantasies desires and attachments necessary for transforming the working class into a historical subject and an emotional community This book reconstructs this complicated and contradictory process through the countless treatises essays memoirs novels poems songs plays paintings photographs and films produced in the name of the proletariat *The Proletarian Dream* reads these forgotten archives as part of an elusive collective imaginary that modeled what it meant and even more important how it felt to claim the name proletarian with pride hope and conviction By emphasizing the formative role of the aesthetic the eighteen case studies offer a new perspective on working class culture as a oppositional culture Such a new perspective is bound to shed new light on the politics of emotion during the main years of working class mobilizations and as part of more recent populist movements and cultures of resentment Aldo and Jeanne Scaglione *Prize for Studies in Germanic Languages and Literatures* 2018 **Hive Mind Dreaming** Dr. Thomas Stark, John Lennon said A dream you dream alone is only a dream A dream you dream together is reality OK you want a whole new way of looking at reality Nothing is more extraordinary than the Hive

Mind According to the theory of the Hive Mind existence is made of nothing but minds all packed together in the Cosmic Hive All the minds do is dream individually and collectively and in doing so they generate the world we all experience The fundamental activity of the mind is dreaming Come inside the hive and discover how reality works *English Drama* Alexander Leggatt, 2014-06-06 The most important period in the history of English drama is revealed in Alexander Leggatt's challenging account The author considers English drama from the beginning of Shakespeare's career to the restoration of Charles II Focusing on Shakespeare and the development of his art he examines all his major contemporaries Jonson Middleton Webster Beaumont Fletcher and Ford He combines close analysis of specific plays with a broader look at trends within drama Knot of the Soul Stefania Pandolfo, 2018-05-09 Through a dual engagement with the unconscious in psychoanalysis and Islamic theological medical reasoning Stefania Pandolfo's unsettling and innovative book reflects on the maladies of the soul at a time of tremendous global upheaval Drawing on in depth historical research and testimonies of contemporary patients and therapists in Morocco Knot of the Soul offers both an ethnographic journey through madness and contemporary formations of despair and a philosophical and theological exploration of the vicissitudes of the soul Knot of the Soul moves from the experience of psychosis in psychiatric hospitals to the visionary torments of the soul in poor urban neighborhoods to the melancholy and religious imaginary of undocumented migration culminating in the liturgical stage of the Qur'anic cure Demonstrating how contemporary Islamic cures for madness address some of the core preoccupations of the psychoanalytic approach she reveals how a religious and ethical relation to the ordeal of madness might actually allow for spiritual transformation This sophisticated and evocative work illuminates new dimensions of psychoanalysis and the ethical imagination while also sensitively examining the collective psychic strife that so many communities endure today

Elemental Discourses John Sallis, 2018-09-28 John Sallis's thought is oriented to two overarching tasks to bring to light the elemental in nature and to show how the imagination operates at the very center of human experience He undertakes these tasks by analyzing a broad range of phenomena including perception the body the natural world art space and the cosmos In every case Sallis develops an original form of discourse attuned to the specific phenomenon and enacts a thorough reflection on discourse itself in its relation to voice dialogue poetry and translation Sallis's systematic investigations are complemented by his extensive interpretations of canonical figures in the history of philosophy such as Plato Aristotle Kant Schelling and Hegel and by his engagement with the most original thinkers in the areas of phenomenology hermeneutics and deconstruction Race, Whiteness, and Education Zeus Leonardo, 2009-05-12 In the colorblind era of Post Civil Rights America race is often wrongly thought to be irrelevant or at best a problem of racist individuals rather than a systemic condition to be confronted Race Whiteness and Education interrupts this dangerous assumption by reaffirming a critical appreciation of the central role that race and racism still play in schools and society Author Zeus Leonardo's conceptual engagement of race and whiteness asks questions about its origins its maintenance and envisages its future This book does

not simply rehearse exhausted ideas on the relationship among race class and education but instead offers new ways of understanding how multiple social relations interact with one another and of their impact in thinking about a more genuine sense of multiculturalism By asking fundamental questions about whiteness in schools and society *Race Whiteness and Education* goes to the heart of race relations and the common sense understandings that sustain it thus painting a clearer picture of the changing face of racism *Dreams, A Portal to the Source* Edward C. Whitmont, Sylvia Brinton

world's leading epistemologists provides a sophisticated revisionist introduction to the subject In this concise book one of the

world's leading epistemologists provides a sophisticated revisionist introduction to the problem of knowledge in Western philosophy. Modern and contemporary accounts of epistemology tend to focus on limited questions of knowledge and skepticism such as how we can know the external world, other minds, the past through memory, the future through induction, or the world's depth and structure through inference. This book steps back for a better view of the more general issues posed by the ancient Greek Pyrrhonists. Returning to and illuminating this older, broader epistemological tradition, Ernest Sosa develops an original account of the subject, giving it substance not with Cartesian theology but with science and common sense. Descartes is a part of this ancient tradition, but he goes beyond it by considering not just whether knowledge is possible in the first place but also how we can properly attain it. In Cartesian epistemology, Sosa finds a virtue-theoretic account, one that he extends beyond the Cartesian context. Once epistemology is viewed in this light, many of its problems can be solved or fall away. The result is an important reevaluation of epistemology that will be essential reading for students and teachers.

The Orphaned Imagination Guinn Batten, 1998. Studies of the English Romantic poets generally portray them either as transcending the workings of capitalism or as working in complicity with an entrepreneurial economy. In *The Orphaned Imagination*, Guinn Batten challenges standard accounts of Romantic poetry and argues that Wordsworth, Byron, Blake, Shelley, Keats, and Coleridge, each of whom suffered the loss of a father or father figure at an early age, possessed an orphan's special insight into the dynamics and aesthetics of commodity culture and its symptomatic melancholia. Building on the theoretical insights of Slavoj Žižek, Judith Butler, Julia Kristeva, and Eve Kosofsky Sedgwick, Batten interweaves the discourses of psychoanalysis, economics, biography, sexuality, melancholy, value, and exchange to question accepted ideas of how Romantic poetry works. She asserts that poetic labor is in fact paradigmatic of the kinds of production and the kinds of desire that capitalist culture renders invisible. If symbolic exchange in cash or in words requires the surrender of a beloved object, if healthy mourning requires an orphan to work through emotional loss through the consolation of art or a love for the living, then the rebellious Romantic poet, Batten contends, possessed unique insight into the alternative authority of a poetic language that renounced a culture of denial. Batten urges that scholars move beyond critical approaches condemning allegedly regressive forms of pleasure, recognizing that they too are haunted by melancholic attachments to dead poets as they conduct their work. *The Orphaned Imagination* will interest anyone concerned with the claims of the English Romantic poets to a distinctive, valuable form of knowledge and those who may wonder about the power of contemporary theory to illuminate a traditional field.

Semiological Reductionism Martin C. Dillon, 1995-01-01. This critical interpretation shows Derridian thought to be permeated by a semiology that reduces all meaning to the signification of signs, thus challenging the philosophy of deconstruction at its roots.

Inception and Philosophy David Kyle Johnson, 2011-11-15. A philosophical look at the movie *Inception* and its brilliant metaphysical puzzles. Is the top still spinning? Was it all a dream? In the world of Christopher Nolan's four-time Academy Award-winning movie, people can share one another's dreams and alter their beliefs.
