Radical Islam Rising Muslim Extremism In The West:

Radical Islam Rising Quintan Wiktorowicz, 2005-07-21 Although the West denounces the spread of radical Islam in Saudi Arabia Pakistan and elsewhere in the Muslim world it tends to overlook the development of Islamic extremism in its own societies Over the past several decades groups like al Qaeda have been supported by thousands of citizens of the United States the United Kingdom and other Western democracies Rejecting their national identity they have heeded international calls to jihad and formed extremist groups to fight their own countries This groundbreaking book represents one of the first systematic attempts to explain why Westerners join radical Islamic groups Quintan Wiktorowicz details the mechanisms that attract potential recruits the instruments of persuasion that convince them that radical groups represent real Islam and the socialization process that prods them to engage in risky extremism Throughout he traces the subtle process that can turn seemingly unreligious people into supporters of religious violence The author's invaluable insights are based upon nearly unprecedented access to a radical Islamic group in the West His extraordinary fieldwork forms the basis of a detailed case study of al Muhajiroun a transnational movement based in London that supports Bin Laden and other Islamic terrorists Through its rich empirical detail this book explains why ordinary people join extremist movements

Radical Islam Rising Quintan Wiktorowicz, 2005-07-21 This unique book represents one of the first systematic attempts to explain why thousands of Westerners heed international calls to jihad and join radical Islamic groups Drawing on his unprecedented access to a radical Islamic group Quintan Wiktorowicz details the subtle process that can turn seemingly unreligious people into supporters of religious violence The author's extraordinary fieldwork forms the basis of a detailed case study of al Muhajiroun a transnational movement based in London that supports Bin Laden and other Islamic terrorists Through its rich empirical detail the case study explains the larger question of why ordinary people join extremist movements

Homegrown Violent Extremism Erroll Southers, 2014-09-25 In the country's changing threat environment homegrown violent extremism HVE represents the next challenge in counterterrorism Security and public policy expert Erroll Southers examines post 9 11 HVE what it is the conditions enabling its existence and the community based approaches that can reduce the risk of homegrown terrorism Drawing on scholarly insight and more than three decades on the front lines of America's security efforts Southers challenges the misplaced counterterrorism focus on foreign individuals and communities As Southers shows there is no true profile of a terrorist The book challenges how Americans think about terrorism recruitment and the homegrown threat It contains essential information for communities security practitioners and policymakers on how violent extremists exploit vulnerabilities in their communities and offers approaches to put security theory into practice

Hizbut Tahrir Indonesia and Political Islam Mohamed Nawab Mohamed Osman, 2018-05-15 This book offers a timely examination of Hizbut Tahrir Indonesia HTI a chapter of the transnational movement Hizb ut Tahrir HT whose key aim is the revival of the caliphate It cautions against an overly simplistic read of a group like HTI and political Islam in

Indonesia While there is much to laud particularly with regard to how leaders in Indonesia have attempted to counteract Islamist extremism insofar as the trajectory of non violent Islamism in Indonesia is concerned there are clear reasons for apprehension Groups like the HTI have been adept at using the democratic space in Indonesia to propound their illiberal objectives including encouraging the curtailment of Indonesian art forms deemed un Islamic and more importantly pushing for certain Islamic sects such as the Ahmadiyahs to be banned Yet despite its extreme posturing HTI is accepted as a mainstream Muslim organization As such the Indonesian chapter of Hizb ut Tahrir represents a unique case unlike other chapters which are deemed extreme and fringe HTI though radical still exists within the space provided by the Indonesian religio political landscape This book offers new insights into HTI s history organizational structure and ideology adding considerable new details about HTI and correcting errors in existing literature while directing its primary focus on explaining HTI s rapid growth in Indonesia The central argument is that the key to understanding HTI s growth lies in the role collective identity plays in attracting new members and retaining its existing members within the party Factors such as institutional and non institutional opportunities within the Indonesian political system HTI s resource mobilization strategies and the anti systemic ideology of HTI serve as political organizational and religious incentives for individuals to join the party and launch collective action This goes on to emphasize and show that collective identity remains the most crucial factor in the party s growth Analysing this process of collective identity formation and its impact on recruitment and membership retention is central to this book This book will be of much interest to students of Southeast Asian politics regional security political Islam and International Relations in general Shi'ism in America Liyakat Nathani Takim,2011-09 Provides an overview of America s Shi i community tracing its history describing its composition in the twenty first century and explaining how they have created an identity for themselves in the American context The Symbolic Scenarios of Islamism Andrea Mura,2015-09-28 The Symbolic Scenarios of Islamism initiates a dialogue between the discourse of three of the most discussed figures in the history of the Sunni Islamic movement Hasan al Banna Sayyid Qutb and Osama bin Laden and contemporary debates across religion and political theory Redressing the inefficiency of the terms in which the debate on Islam and Islamism is generally conducted the book examines the role played by tradition modernity and transmodernity as major symbolic scenarios of Islamist discourses highlighting the internal complexity and dynamism of Islamism

'home-Grown' Jihad Samuel John MULLINS,2015-11-09 Based on seven years of original research this book contains one of the most detailed and comprehensive assessments of home grown Islamist terrorism HGIT in the US and UK to date Beginning with an examination of the development of militant networks during the 1980s and 1990s it traces the origins of HGIT and highlights the significance of these early experiences in different countries for shaping the future trajectory of the threat The book also examines the range of motivations for violent jihad in the West suggesting a composite theoretical model that specifies three necessary conditions for involvement and challenges popular explanations for differential rates of

terrorism which emphasize socioeconomic factors The book analyzes the background and operational activities of nearly 800 American and British jihadis who mobilized between 1980 and September 11th 2013 including factors such as mental health education processes of radicalization leadership use of the Internet sources of funding and links to foreign terrorist organizations This analysis is then complemented with an examination of how these individuals have been dealt with by the respective security services From the first proponents of global jihad to the recent wave of volunteers inspired by events in the Middle East this book provides an extensive yet lucid analysis of one of the greatest security concerns facing America and Great Britain today Home Grown Jihad challenges existing studies on a number of key issues and expands our understanding of HGIT It will be invaluable to academics practitioners and policymakers alike Counter-Radicalisation Christopher Baker-Beall, Charlotte Heath-Kelly, Lee Jarvis, 2014-09-15 This book offers a wide ranging and critical examination of recent counter radicalisation policies using case studies from several countries Counter radicalisation policies such as the UK Prevent strategy have been highly controversial and increasingly criticised since their introduction In this edited volume voices from disciplines including sociology political science criminology and International Relations are brought together to address issues across the global roll out of counter radicalisation agendas In so doing the book critically interrogates i the connections between counter radicalisation and other governmental programmes and priorities relating to integration and community cohesion ii the questionable dependence of counter radicalisation initiatives on discourses and assumptions about race risk and vulnerability to extremism and iii the limitations of existing counter radicalisation machineries for addressing relatively new types of extremism including amongst right wing activists Through examining these questions the book draws on a range of contemporary case studies spanning from counter radicalisation in the UK Germany and Denmark through to detailed analyses of specific preventative initiatives in Australia and the United States Conceptually the chapters engage with a range of critical approaches including discourse theory autoethnography and governmentality This book will be of much interest to students of radicalisation critical terrorism studies counter terrorism sociology security studies and IR in general

A History of the Muslim World since 1260 Vernon Egger, 2016-09-16 The history of the predominantly Muslim world is examined within the context of world history It examines political economic and broad cultural developments as well as specifically religious ones The themes of the book are tradition and adaptation it examines the tensions between the desire of Muslims to maintain continuity with their legacy and their recognition of the need to adapt to changing conditions

Islamism Richard Martin, Abbas Barzegar, 2010 Scholars and public intellectuals debate the significance of the term Islamism and ask what it means to apply this term to Islamic religion tradition and social conflict Schooling Islam Robert W. Hefner, Muhammad Qasim Zaman, 2010-12-16 Since the Taliban seized Kabul in 1996 the public has grappled with the relationship between Islamic education and radical Islam Media reports tend to paint madrasas religious schools dedicated to Islamic learning as medieval institutions opposed to all that is Western and as breeding grounds for terrorists Others have

claimed that without reforms Islam and the West are doomed to a clash of civilizations Robert Hefner and Muhammad Qasim Zaman bring together eleven internationally renowned scholars to examine the varieties of modern Muslim education and their implications for national and global politics The contributors provide new insights into Muslim culture and politics in countries as different as Morocco Egypt Pakistan India Indonesia Iran and Saudi Arabia They demonstrate that Islamic education is neither timelessly traditional nor medieval but rather complex evolving and diverse in its institutions and practices They reveal that a struggle for hearts and minds in Muslim lands started long before the Western media discovered madrasas and that Islamic schools remain on its front line Schooling Islam is the most comprehensive work available in any language on madrasas and Islamic education *Extreme Britain* Elizabeth Pearson,2024 Drawing on interviews with extremists this timely study explores the relationship between gendered culture and political radicalism using Britain as a case study **Terrorist Movements and the Recruitment of Arab Foreign Fighters** Roger Warren,2020-02-20 This book offers the first detailed in depth account of how and why some Arab foreign fighters subsequently became involved in Islamist terrorism Drawing on a personal dataset of 3 010 Arab foreign fighters compiled using biographies martyrdom eulogies and postings on jihadi websites Terrorist Movements and the Recruitment of Arab Foreign Fighters suggests that the subsequent involvement in Islamist terrorism by some Arab foreign fighters is primarily forged in the crucible of defensive jihad **Prevent strategy** Great Britain: Home Office,2011-06-07 The Prevent strategy launched in 2007 seeks to stop people becoming terrorists or supporting terrorism both in the UK and overseas It is the preventative strand of the government s counter terrorism strategy CONTEST Over the past few years Prevent has not been fully effective and it needs to change This review evaluates work to date and sets out how Prevent will be implemented in the future Specifically Prevent will aim to respond to the ideological challenge of terrorism and the threat we face from those who promote it prevent people from being drawn into terrorism and ensure that they are given appropriate advice and support and work with sectors and institutions where there are risks of radicalization which need to be addressed Understanding Violent Radicalisation Magnus Ranstorp,2010-01-21 This is the first book to address in depth the interplay between radicalisation and political violence in Europe as well as the effectiveness of counter measures As evidenced from the multitude of intercepted plots across several European cities since 2001 the threat level and the intensity of the desire to perpetrate mass casualty attacks within Europe is not diminishing While violent radicalization has gradually moved to the top of the EU counterterrorism agenda it has been accompanied by a relatively embryonic understanding about the processes and interplay of factors that contribute to radicalization which are played out differently in cities like Paris Rome London and Copenhagen Undoubtedly there are common factors at the global and regional levels that facilitate radicalization but it is also clear that radicalization is very context dependent This book provides crucial insights into different ways to understand violent radicalization within national contexts and the challenges addressing the many pathways into terrorism inspired by al Qaeda and other forms of

Islamic extremism This book will be of great interest to students of terrorism studies and political violence counter terrorism EU politics security studies and IR in general Magnus Ranstorp is Research Director of the Center for Asymmetric Threat Studies at the Swedish National Defence College and a Member of EU Expert Groups on Violent Radicalisation He has twenty years of experience in research on counterterrorism issues and testified at the 9 11 Commission Hearing *Sufis, Salafis and Islamists* Sadek Hamid, 2016-03-23 British Muslim activism has evolved constantly in recent decades What have been its main groups and how do their leaders compete to attract followers Which social and religious ideas from abroad are most influential In this groundbreaking study Sadek Hamid traces the evolution of Sufi Salafi and Islamist activist groups in Britain including The Young Muslims UK Hizb ut Tahrir the Salafi JIMAS organisation and Traditional Islam Network With reference to second generation British Muslims especially he explains how these groups gain and lose support embrace and reject foreign ideologies and succeed and fail to provide youth with compelling models of British Muslim identity Analysing historical and firsthand community research Hamid gives a compelling account of the complexity that underlies reductionist media narratives of Islamic activism in Britain *The Cambridge Companion to Religion and Terrorism* James Lewis, 2017-07-25 Does religion cause terrorism This volume presents a range of theories and case studies that address this important issue **Islamic Militant Activism in Belgium, The Netherlands and Germany** Martijn de Koning, Carmen Becker, Ineke Roex, 2020-06-25 Based on ethnographic research in Belgium The Netherlands and Germany this book presents a novel approach to studying Muslim militant activism While much existing research focuses on the process of radicalization these authors introduce a different set of questions that investigate specific modes of activism and their engagement with dominant discourses and practices in media and state policies Drawing on social movement theory and Foucault's work on counter conduct this research explores how da wa networks came about and how activists developed themselves in interaction with state and media practices This perspective highlights a form of activism and resistance in which activists turn against policies and debates centring on Muslims and Islam while attempting to create and protect an alternative space for themselves in which they can experience Islam according to their own perception of it The study will contribute to debates about resistance social movements and militant activism among Muslims in Europe **The SAGE Handbook of Islamic Studies** Akbar S Ahmed, Tamara Sonn, 2010-04-22 a welcome addition to the already available introductory works on Islam The chapters of the book combine depth of analysis and erudition on a wide range of subjects Thus in a single volume one finds several superbly written papers not only on the foundations of Islam and the manifestations of Islamic culture but also on issues which are at the centre of contemporary debates among Muslims such as multiculturalism social justice democracy and diversity As a sourcebook this work is equally useful for students academicians and general readers Zafar Ishaq Ansari Director Islamic Research Institute International Islamic University Islamic Studies is at a critical moment in its history It seeks both to maintain its rich history and to engage with other sometimes dominant cultural and political studies

This tension is producing complex changes in both the theory and the practice of Islamic Studies This timely and stimulating Handbook edited by world class experts in the field provides a comprehensive guide to Islamic Studies today It examines the main issues in the field and explores the key debates It provides readers with an indispensable balanced guide to the roots of Islam and the challenges it faces in the twenty first century The Handbook includes discussions of Islam as a community of discourse and a global system Islam diaspora and multiculturalism The Qur'an today Islam as a moral and judicial system Islam and politics Islam and culture Diversities and Islam Concise level headed and penetrating this collection will be of interest to anyone who studies contemporary Islam It brings together an unparalleled collection of international scholars who illuminate some of the most urgent and complex issues in the world today
