three presidential campaigns one presidential impeachment and an unforgettable sex scandal Didion reveals the mechanics of American politics She tells us the uncomfortable truth about the way we vote the candidates we vote for and the people who tell us to vote for them These pieces build one on the other into a disturbing portrait of the American political landscape providing essential reading on our democracy

*Solidarity* David Featherstone, 2012-07-12 Despite the frequency with which the word solidarity is invoked the concept itself has rarely been subjected to close scrutiny In this original and stereotype busting work David Featherstone helps redress this imbalance through an innovative combination of archival research activist testimonies and first hand involvement with political movements Presenting a variety of case studies from anti slavery and anti fascist organizing to climate change activism and the boycotts of Coca Cola Featherstone unearths international forms of solidarity that are all too often marginalized by nation centred histories of the left and social movements Timely and wide ranging this is a fascinating investigation of an increasingly vital subject

*The Social Documentary in Latin America* Julianne Burton-Carvajal, 1990-09-15 Twenty essays by major filmmakers and critics provide the first survey of the evolution of documentary film in Latin America While acknowledging the political and historical weight of the documentary the contributors are also concerned with the aesthetic dimensions of the medium and how Latin American practitioners have defined the boundaries of the form

*After Insurgency* Ralph Sprenkels, 2018-04-30 El Salvador's 2009 presidential elections marked a historical feat Frente Farabundo Mart para la Liberaci n Nacional FMLN became the first former Latin American guerrilla movement to win the ballot after failing to take power by means of armed struggle In 2014 former comandante Salvador S nchez Cer n became the country's second FMLN president After Insurgency focuses on the development of El Salvador's FMLN from armed insurgency to a competitive political party At the end of the war in 1992 the historical ties between insurgent veterans enabled the FMLN to reconvert into a relatively effective electoral machine However these same ties also fueled factional dispute and clientelism Drawing on in depth ethnographic fieldwork Ralph Sprenkels examines El Salvador's revolutionary movement as a social field developing an innovative theoretical and methodological approach to the study of insurgent movements in general and their aftermath in particular while weaving in the personal stories of former revolutionaries with a larger historical study of the civil war and of the transformation process of wartime forces into postwar political contenders This allows Sprenkels to shed new light on insurgency's persistent legacies both for those involved as well as for Salvadoran politics at large In documenting the shift from armed struggle to electoral politics the book adds to ongoing debates about contemporary Latin America politics the pink tide and post neoliberal electoralism It also charts new avenues in the study of insurgency and its aftermath

*Mapping Memory* Kaitlin M. Murphy, 2018-10-02 In Mapping Memory Kaitlin M Murphy investigates the use of memory as a means of contemporary sociopolitical intervention Mapping Memory focuses specifically on visual case studies including documentary film photography performance new media and physical places of memory from sites ranging from the Southern Cone to Central

America and the U S Mexican borderlands Murphy develops new frameworks for analyzing how visual culture performs as an embodied agent of memory and witnessing arguing that visibility is inherently performative By analyzing the performative elements or strategies of visual texts such as embodiment reenactment haunting and the performance of material objects and places Murphy elucidates how memory is both anchored in and extracted from specific bodies objects and places Drawing together diverse theoretical strands Murphy originates the theory of memory mapping which tends to the ways in which memory is strategically deployed in order to challenge official narratives that often neglect or designate as transgressive certain memories or experiences Ultimately Murphy argues memory mapping is a visual strategy to ask and to challenge why certain lives are rendered visible and thus grievable and others not Extended Voluntary Departure Issues United States. **From Popular to Insurgent Intellectuals** Leigh Binford, 2022-12-09 From Popular to Insurgent Intellectuals explains how a group of Catholic lay catechists educated in liberation theology came to take up arms and participate on the side of the rebel FMLN during El Salvador's revolutionary war 1980-92 In the process they became transformed from popular intellectuals to insurgent intellectuals who put their organizational and cognitive skills at the service of a collective effort to create a more egalitarian and democratic society The book highlights the key roles that peasant catechists in northern Morazán played in disseminating liberation theology before the war and supporting the FMLN during it as quartermasters political activists and musicians among other roles Throughout From Popular to Insurgent Intellectuals highlights the dialectical nature of relations between Catholic priests and urban revolutionaries among others in which the latter learned from the former and vice versa Peasant catechists proved capable at making independent decisions based on assessment of their needs and did not simply follow the dictates of those with superior authority and played an important role for the duration of the twelve year military conflict
