with the states bordering the Pacific Ocean and by states within each region For each state there are from four to fifteen songs presented with an average of 10 songs per state For each song a full text is reprinted followed by discussion of the song in its historical context References to available recordings and other versions are given Folksongs such as those discussed here are an important tool for historians and cultural historians because they sample experiences of the past at a different level from that of contemporary newspaper accounts and academic histories These songs in a sense are history writ small Includes Away Down East The Old Granite State Connecticut The Virginian Maid s Lament Carry Me Back to Old Virginny I m Going Back to North Carolina Shut up in Cold Creek Mine Ain t God Good to Iowa Dakota Land Dear Prairie Home Cheyenne Boys I m off for California and others

**Dixie Limited** Joseph R. Millichap, 2014-10-17 In the South railroads have two meanings they are an economic force that can sustain a town and they are a metaphor for the process of southern industrialization Recognizing this duality Joseph Millichap s Dixie Limited is a detailed reading of the complex and often ambivalent relationships among technology

culture and literature that railroads represent in selected writers and works of the Southern Renaissance Tackling such Southern Renaissance giants as Thomas Wolfe Eudora Welty Robert Penn Warren and William Faulkner Millichap mingles traditional American and Southern studies in their emphases on literary appreciation and evaluation in terms of national and regional concerns with contemporary cultural meaning in terms of gender race and class Millichap juxtaposes Faulkner's semi autobiographical families with Wolfe's fiction which represents changing attitudes toward the Southern Other Faulkner's later fiction is compared to that of Warren Welty and Ellison and Warren's later poetry moves toward the contemporary post Southernism of Dave Smith These disparate examples suggest the subject of the final chapter the continuing search for post Southern patterns of persistence and change that reiterate reject and perhaps reconfigure the Southern Renaissance As we enter the twenty first century that we recall how much the twentieth century South was shaped by railroads built in the nineteenth century It is also important that we recognize how much our future will be determined by the technological and cultural tracks we lay
