 the physical physiological and mythological aspects of phallos the author differentiates masculinity from patriarchy and
 discovers a mysterious divine reality coequal with the maternal principle as an originating force in the psyche **The**
Rainbow Serpent Charles E. Hulley, 1999 The Rainbow Serpent legend is one of the oldest of Aboriginal myths and legends
 Drawing on rock art paintings from all over Australia the literature about the legend and the oral traditions of Aboriginal
 tribes this book places the legend into perspective The Dreaming Universe Fred Alan Wolf, 1995-06 Wolf provides a
 provocative exploration of the mysteries of how and why we dream artfully combining anthropology psychology and physics
 to present his revolutionary theory that establishes previously unrecognized links between the physical act of dreaming and
 the development of consciousness Line art Singularia James M. Harvey, 2009 Tantric Buddhism and Altered States of
Consciousness Louise Child, 2016-04-01 This book explores the role of altered states of consciousness in the communication
 of social and emotional energies both on a societal level and between individual persons Drawing from an original reading of
 Durkheimian social theorists including Mauss Hertz and Hubert and Jungian psychology Louise Child applies this analysis to
 tantric Buddhist ritual and biographical material She suggests ways in which dreams and visionary experiences including
 those related to the subtle body play an important and previously under explored role in tantric understandings of the
 consort relationship *The Dragon and the Rainbow* Robert Blust, 2023-08-21 Modernization and conversion to world
 religions are threatening the survival of traditional belief systems leaving behind only mysterious traces of their existence
 This book based upon extensive research conducted over a period of nearly four decades brings scientific rigor to one of the
 questions that have always attracted human curiosity that of the origin of the dragon The author demonstrates that both
 dragons and rainbows are cultural universals that many of the traits that are attributed to dragons in widely separated parts
 of the planet are also attributed to rainbows and that the number and antiquity of such shared traits cannot be attributed to
 chance or common inheritance but rather to common cognitive pathways by which human psychology has responded to the
 natural environment in a wide array of cultures around the world *Jung and the Jungians on Myth* Steven
 Walker, 2014-04-08 Carl Gustav Jung 1875 1961 was never more insightful and intriguing than when he discussed mythology
 The key to understanding the Jungian approach to mythology lies in the concept of the image which provides the basis for his
 theory of the unconscious By emphasizing the image over the word Jungian psychology distinguishes itself dramatically from
 Freudian Lacanian and other psychologies that stress the task of interpreting the language the words of the unconscious In
 Jung and the Jungians on Myth Steven Walker carefully leads the reader through the essential lines of thought in Jungian
 psychology before developing his method for using Jungian ideas to approach mythological texts Whether one is sympathetic
 toward Jung's ideas or critical of them one will find in Walker's discussion a lucid introduction to Jungian perspectives on

myth and psychology *Alchemy* Marie-Luise von Franz,1980 It was the genius of C G Jung to discover in the holy technique of alchemy a parallel to the psychological individuation process This book by Jung s long time friend and co worker completely demystifies the subject Designed as an introduction to Jung s more detailed studies and profusely illustrated here is a lucid and practical account of what the alchemists were really looking for emotional balance and wholeness back cover

Encyclopedia of Ancient Deities Charles Russell Coulter,Patricia Turner,2013-07-04 The history of the divine is the history of human thought For as long as men and women have pondered the mysteries of their existence they have answered their own questions with stories of gods and goddesses Belief in these deities shaped whole civilizations yet today many of their names and images lie buried The Encyclopedia of Ancient Deities makes those names available to the general reader as well as the scholar This reference work lists all the known gods through recorded history Alphabetically arranged entries provide the name of each deity with alternate spellings as well as notes on names that may be linguistically or functionally related The tribe or culture that worshiped the deity is identified and the god s origins and functions are explained An extensive bibliography provides opportunities for further research and an exhaustive index provides access to the entries through virtually all names forms and kinds of deities **Developing Magical Consciousness** Susan

Greenwood,2019-09-30 Offering a new template for future exploration Susan Greenwood examines and develops the notion that the experience of magic is a panhuman orientation of consciousness a form of knowledge largely marginalized in Western societies In this volume she aims to form a bridge of communication between indigenous magical or shamanic worldviews and rationalized Western cultures She outlines an alternative mythological framework for the latter to help develop a magical perception as well as giving practical case studies derived from her own research The form of magic discussed here is not fantastic or virtual but ecological and sensory Magical knowledge infiltrates the body in its deepest levels of the subconscious and unconscious as well as conscious awareness it is felt and understood through the connection with an inspirited world that includes the consciousness of other beings including those of plant animal and the physical environment This is anthropology from the heart rather than the head and it engages with the messy area of emotions an embodiment of the senses and struggles to find a common language of listening to one another across a void of differences The aim is to provide a non reductive structure for the creative interplay of both magical and analytical modes of thought Passion is a motivator for change and a change in attitude to magic as an integrative force of human understanding is the main thread of this work *Personality Types* Daryl Sharp,1987 Explains the model of psychological types elaborated by C

G Jung Back cover *The Illness that We are* John P. Dourley,1984 Dr Dourley Catholic priest and professor of religion explores Jung s assessment of Christianity questioning its essentially masculine orientation and its emphasis on perfection rather than wholeness as the goal *The Alchemical Actor* Jane Gilmer,2021-05-12 The Alchemical Actor offers an imagination for new and future theatre inspired by the manifesto of Antonin Artaud The alchemical four elements earth water

air and fire and the four alchemical stages nigredo albedo citrino and rubedo serve as initiatory steps towards the performance of transmutational consciousness The depth psychological work of Carl G Jung the theatre techniques of Michael Chekhov and Rudolf Steiner infuse this Great Work Jane Gilmer leads the reader through alchemical imaginations beyond material cognition towards gold making heart thinking key to new and future theatre The Religious Dimension Donald Broadribb,2006 An examination of various world and ethnic religions with special attention to their historical development and to the psychology underlying them **Killing Beauty in North America** Constance Mills Atkins Buck PhD,2022-11-07 My great grandfather Brigadier General Anson Mills engaged in battle with the Sioux and Cheyenne Indians in South Dakota in the 1800s He led the battle against the Native people at the Battle of Slim Buttes in Montana War trophies considered sacred objects by the Indians included a beautiful beaded clothing a war bonnet with buffalo horns and a blanket strip They were only a few of the pieces I grew up with They hung on the walls of my parents home I remember as a child that I would physically cringe and contract around them I did not know why but I felt pain and heard them speak I am in pain I want to go home In the early 1970s I met the sacred Hat Carrier and other Cheyenne native people I returned the beautiful articles which were placed in the Jim Gatchell Museum in Buffalo Wyoming There are many stories told about European experiences when they landed Most stories idealize the experience of white males There are many other stories to be told This is one of them *Spiritual Telepathy* Colleen Mauro,2015-04-15 Colleen Mauro founded Intuition A Magazine for the Higher Potential of the Mind to introduce readers to the emerging field of intuition development In her new book she takes readers beyond the intuition basics and introduces them to the next step a more advanced form of intuitive perception called spiritual telepathy This book provides the ancient mind training techniques that will allow you to access the wisdom and guidance of your own soul These techniques once taught in the ancient mystery schools come from a body of knowledge called the Ageless Wisdom The Wisdom teachings tell us that the soul is our gateway to the higher worlds Through the soul we have access to the universal or divine mind where information on all subjects can be found In the past it s been only the special people our saints shamans and spiritual leaders who have had access to the higher worlds Colleen assures us that we can all gain access to that universal wellspring of inspiration and knowledge **The Rainbow Bridge** Raymond L. Lee,Alistair B. Fraser,2001 Venerated as god and goddess feared as demon and pestilence trusted as battle omen and used as a proving ground for optical theories the rainbow s image is woven into the fabric of our past and present From antiquity to the nineteenth century the rainbow has played a vital role in both inspiring and testing new ideas about the physical world Although scientists today understand the rainbow s underlying optics fairly well its subtle variability in nature has yet to be fully explained Throughout history the rainbow has been seen primarily as a symbol of peace covenant or divine sanction rather than as a natural phenomenon Lee and Fraser discuss the role the rainbow has played in societies throughout the ages contrasting its guises as a sign of optimism bearer of Greek gods messages of war and retribution and a symbol of the Judeo

Christian bridge to the divine The authors traverse the bridges between the rainbow s various roles as they explore its scientific artistic and folkloric visions This unique book exploring the rainbow from the perspectives of atmospheric optics art history color theory and mythology will inspire readers to gaze at the rainbow anew For more information on The Rainbow Bridge visit *Eastern Body, Western Mind* Anodea Judith,2011-03-16 A revised edition of the groundbreaking New Age book that seamlessly merges Western psychology and science with spirituality creating a compelling interpretation of the Eastern chakra system and its relevance for Westerners today A useful tool for contemplating our strengths weaknesses and appropriate approaches to growth Yoga Journal In Eastern Body Western Mind chakra authority Anodea Judith brought a fresh approach to the yoga based Eastern chakra system adapting it to the Western framework of Jungian psychology somatic therapy childhood developmental theory and metaphysics and applying the chakra system to important modern social realities and issues such as addiction codependence family dynamics sexuality and personal empowerment Arranged schematically the book uses the inherent structure of the chakra system as a map upon which to chart our Western understanding of individual development Each chapter focuses on a single chakra starting with a description of its characteristics and then exploring its particular childhood developmental patterns traumas and abuses and how to heal and maintain balance
