Mauricio Gomez With The Left Hand:

With the Left Hand Mauricio Gómez, Jean-Claude Athané, Tsu Chen Chen, 2003 At age 40 when he was a successful journalist Mauricio Gomez Bogot 1949 had to flee Colombia due to his strong position against the drug cartels In U S A he started to take painting lessons and in 1992 he swapped careers to art and settled definitely in Paris In 1999 when he had his first show in Bogot it was already clear that his work was not conventional Soon after that a painful disease to his right arm kept him from working As a result he started using different techniques such as collage and materials like pigments and rubber until he had developed a whole new pictorial universe using his left hand Through an interesting selection of his most recent work this book aims at showing Mauricio Gmez s new plastic and human facet which reveals him as a relentless fighter for whom art is the uttermost reason to live The Mexican Exception G. Williams, 2011-05-09 This book examines

the question of democracy in post revolutionary Mexican society Each chapter recuperates an event or particular historical sequence that sheds light on the relation between culture and sovereign exceptionality Each moment or sequence stages a relation to language In these speech scenes there is a disagreement between social actors for example disputes between peasants and intellectuals over words such as democracy equality freedom proletariat worker revolution etc Democracy in this book is not just a type of Constitution or a form of society that politics affirms on a daily basis It is the assumption and installation of egalitarian language Democracy is therefore the momentary interruption or suspension of the police order
