Maloideae)* J. B. Phipps, 1997 *The State of Nuevo León*, 1998 **Delirio—The Fantastic, the Demonic, and the Réel** Marie Theresa Hernández, 2010-01-01 Striking inexplicable stories circulate among the people of Nuevo León in northern Mexico Stories of conversos converted Jews who fled the Inquisition in Spain and became fabulously wealthy in Mexico Stories of women and children buried in walls and under houses Stories of an entire secret city hidden under modern day Monterrey All these stories have no place or corroboration in the official histories of Nuevo León In this pioneering ethnography Marie Theresa Hernández explores how the folktales of Nuevo León encode aspects of Neovolencian identity that have been lost repressed or fetishized in legitimate histories of the region She focuses particularly on stories regarding three groups the Sephardic Jews said to be the original settlers of the region the disappeared indigenous population and the supposed barbaric society that persists in modern Nuevo León Hernández's explorations into these stories uncover the region's complicated history as well as the problematic and often fascinating relationship between history and folklore between officially accepted facts and fictions that many Neovolencians believe as truth Description of Nuevo León, México, 1735-1740 Joseph Antonio Fernández de Jáuregui Urrutia, 1964 Gazetteer of Mexico: J-R, 1992 OECD Public Governance Reviews Public Procurement in Nuevo León, Mexico Promoting Efficiency through Centralisation and Professionalisation OECD, 2018-01-10 This review examines the ongoing public procurement reforms in Nuevo León Mexico both the progress achieved so far and the many challenges that remain The Report: Mexico 2017 Oxford Business Group, Although economic openness left Mexico more exposed to the global financial crisis than some of its Latin American peers its economic profile has since allowed it to bounce back as global trade and investment flows recover Meanwhile Mexico has avoided the recent economic weakness of more commodity dependent economies in the region At the same time past structural reforms are starting to bear fruit and bode well for

growth prospects in the medium to long term *The 0.5 Generation* Dr. Víctor Zúñiga, Dr. Silvia E. Giorguli, 2024-02-06 At the beginning of the twenty first century a generation of children crossed the border from the United States to begin their lives anew in Mexico While all were international migrants their roots spread far and wide Some were migrant returnees born in Mexico others had only ever known a life in the United States Distinguishing returnees from new arrivals seems simple but defining these youths affiliations in their new homes in Mexico is much more complex and yields new insights that enrich our contemporary understanding of inclusion and belonging This book is the product of twenty five years worth of fruitful interdisciplinary dialogue and research on these children s trajectories tracing their journeys and studying integration or lack thereof into Mexican society and institutions **A Guide to Materials Relating to Persons of**
