what he has changed his mind about and why and explores how examining and changing our own views is our new civic duty in a world of outrage disagreement and echo chambers He writes candidly about the stiff upper lip attitudes and toxic masculinity that coloured his childhood and the therapy and personal growth that have led him question his assumptions and explore new perspectives Laying open his personal views on everything from racial prejudice to emotional vulnerability from fat shaming to tattoos he then delves into the real reasons often irrational or unconscious he holds them Unflinchingly honest revealing and funny How Not to Be Wrong is a tonic for a world more divided than ever and a personal manifesto for a better way of thinking and living Because after all if we can't change our own minds we'll never really be able to change anyone else's
