Charles E. Dodgen

Nursing Home Life The Silver Lining A Pogment Nonfiction Series :

Nursing Home Life Helen Fox Glazer, 1990-12-01 Nobody wants to go to a nursing home says the author adding that most people enter reluctantly in some cases tricked into going to the very place which they most dread Written with compassion honesty irrepressible humor this book makes you laugh and cry Glazer s anecdotal approach gives helpful hopeful information for people who are either candidates for nursing homes themselves or for children of those needing such care This people oriented practical guide for laypersons also offers insights for professionals Glazer focuses on what works for people who live in nursing homes why it works She writes about successes as well as failures Each chapter directs readers to look at nursing home environments for particular qualities Does it have art therapy An accessible library Do residents participate in planning What are the menus like Can residents bring personal possessions Glazer is saying that there is appropriate housing at different times in our lives For some of us a nursing home may one day have to be that place but it doesn t have to be awful Indeed it may even be fun *Who's who of Emerging Leaders in America* ,1991 **Simple Lessons for A Better Life** Charles E. Dodgen, 2015-05-05 From the unique experiences of nursing home residents an empathic psychologist derives lessons for living a better life demonstrating how people find happiness peace and fulfillment despite challenging circumstances Perfect for readers who seek inspiration for living a better life at any age and who enjoy books on inspiration motivation wellness psychology self improvement wellness and issues of aging The desire to live a good life is timeless And sometimes insight into what really matters emerges from where we least expect it Even the most challenging circumstances can have a surprise silver lining This perceptive and inspiring book shows that anyone can learn valuable life lessons from the unique experiences of nursing home residents Using illustrative vignettes of his interactions with people facing serious physical mental and social challenges the author derives twenty eight simple yet profoundly important lessons for living a richer life lessons that apply to people at any age Dr Dodgen a clinical psychologist who has worked with this population for eighteen years has discovered that when the surplus trappings of lifestyle are cleared away and lives are stripped to their most essential components people discover new paths to happiness peace and fulfillment Dodgen shares stories that demonstrate how love meaning purpose and contentment can be found even in far from ideal circumstances Offering deeply thoughtful reflections in an easily digestible format this book affirms that no matter our physical economic or social limitations we can remain rich in life Readers looking for ways to improve relationships understand and manage feelings more effectively cope well with challenges mitigate suffering and discover greater serenity in their own life circumstances will find a wealth of insights in these concise enlightening chapters *Speaking of Life* Jaber F. Gubrium, 1993 In one of his earlier books *Living and Dying at Murray Manor* the author availed himself of ethnographic techniques to explore the experience of life in a nursing home This volume extends that exploration to an assessment of the quality of long term care provided to residents of nursing homes and of the resulting quality of lives Taking a bottom up

rather than a top down view Gubrium presents these qualities in the voices of the residents themselves in collaboration with the interviewer Because many residents have been long stayers in nursing facilities they are confronted with matters of home family life history dependence isolation self worth even destiny in ways that would be irrelevant in shorter hospital stays Such matters present significant narrative contexts for conveying the subjective meaning of the quality assurance that has become a leading goal of health care delivery Two key concepts are employed to organize and interpret the narratives narrative linkages and horizons of meaning Narrative linkages refer to the experiences inside or outside the nursing home that are drawn upon to communicate subjective meaning A horizon is the pattern of narrative linkages a resident conveys in speaking of life The approach and narrative material provide conceptual methodological and personal lessons The issues raised by Gubrium s book are informed by a view of residents as biographically active and by the expectation of narrative diversity He relates thereby a personal encounter with storytellers who offer the listener the broad range of orientations and special circumstances that continue to make meaning even at the very end of life
