Nursing The European Dimension:

Nursing ,1993 **Nursing** Sheila Quinn,Susan Russell,1993 Since the signing of the Treaty of Rome in 1957 many changes have occurred in nursing in Europe and a great deal of work has been carried out on behalf of the Standing Committee of Nursing of the EC PCN This book traces the changes within each of the Member States **Nursing - the European Dimension Ed. by Sheila Quinn and Susan Russell** Sheila Quinn,Susan Russell,1993 **European Dimensions** John Field,1998 Field addresses the European Union s desire for a unified approach to education and its content exploring the origin of this interest the tensions that underlie the policies and its impact at national level Nursing in the European Union Sondra Z. Koff,2017-07-05 Nursing in the European Union demonstrates how the European Union EU has refashioned the nursing world throughout the Member States via its power in many other policy domains Volume 1 focused on the EU s impact on nursing education regulation and research endeavours This volume focuses on real life situations and problems EU nurses face wages stress work environments and dispute resolution and places them in a comparative perspective In this unique work Sondra Z Koff develops a profile of nurses workplaces highlighting similarities and diversities challenges and nurses opinions Though it has limited formal authority in the health and health care sectors the EU has had a significant impact on the working life of these practitioners in areas such as employment options industrial relations and their outcomes organizational and environmental features of nurses workplaces collective action and more New policies and legalities are regulating the production distribution practices and organization of nursing according to supranational standards Koff helps to fill a gap in the literature given the dearth of comparative cross national book length studies of the nursing profession By adopting a framework focused on an institution policies and politics Koff addresses these topics from the perspective of multiple actors both national and international *European Dimensions and the Secondary School Curriculum* Ivor Goodson,Veronica McGivney,2018-10-03 Originally published in 1985 Europe and the EEC seemed to be virtually synonymous for the majority of our population and the ambivalent feelings many people have about the Community together with the consistently bad press it received in the UK seemed to engender a hostility in educational circles towards teaching about Europe as a whole However if one of the aims of education is to increase children s awareness tolerance and understanding of the world about them to widen their experience and horizons then teaching about the wider world must have a place in the curriculum This book argues for education about Europe not necessarily in favour of Europe breaking down the national insularity of the UK curriculum and using Europe as one convenient window on the wider world

The history of family and households has been the subject of intensive research for over a generation. Others have challenged this view pioneering different approaches. This volume takes stock of the field focussing particularly on family history in South East Europe in comparison with the rest of Europe. The authors consider what European families have in common their regional and local differences and changes over time using the rich and fascinating variety of sources and methods used by family historians today. Contributors include Guido Alfani Judit Ambrus Mirjana V Bobi Siegfried Gruber Peter Guzowski Violetta Hionidou Daniela Lombardi Beatrice Moring Silvia Sovi Pat Thane Alice Velkov Marta Verginella and Pier Paolo Viazzo.
