Growing Leaders Within Michael Coquyt,Brian K. Creasman,2017-07-20 Growing Leaders Within A Process toward Teacher Leadership will aid school administrators in the task of growing and empowering teacher leaders The goal of growing teacher leaders is to grow a school culture of shared decision making and collaborative leadership It is through this transformation that teacher leaders help school administrators to create a laser focus on student success The underpinnings of the book are based on academic research resulting in a seven step process to growing teacher leaders which is distinctive from other books about teacher leadership Schools may have several teacher leader candidates but it is the responsibility of the school administration to ensure that the right individuals are chosen to become part of the school s leadership team The role of teacher leadership can be diminished if the wrong individuals are selected In response to this the book offers school administrators a research based pragmatic growth process that ensures the right teachers are chosen to enter the leadership ranks at any school Growing and empowering teachers to be leaders is now critical in all schools *International Perspectives on Teacher Well-Being and Diversity* Timothy R. Identity, Diversity and Teaching for Social Justice Juliet Perumal,2007 In recent times educational reformers have proposed ways of using education to reduce inequality overcome discriminatory values and attitudes and alleviate social problems An increasing number of language theorists and practitioners contends that in order to reduce inequality it is essential to address the personal cultural and political implications of language teaching Awareness of these factors activate the need to gain deeper insight into the personal and professional nuances of teachers lives The gap between sociolinguistic theory and educational practice points to the fact that linguists and educationists themselves carry the prejudices of particular social ideological cultural and geographical backgrounds Who teaches what to whom why and how affects curricular decisions which can thus become fraught with political allegiances in this way the non neutrality of language pedagogy is confirmed Drawing from a suite of data sources the book explores the following questions Do teachers autobiographical experiences shape their professional identities Does subscription to counter hegemonic ideologies impact teachers personal and professional positionality and authority What contributions can feminist theorising make to language teaching in socially diverse classrooms Through an exploration of these questions the book gestures towards an imperative to re think educative and pedagogic relationships and the politics of difference and dialogue in demographically diverse classrooms that subscribe to social redress agendas

Freedman,Martha Stoddard

Holmes,2012-02-01 These highly personal essays from a range of academic settings explore the palpable moments of discomfort disempowerment and or enlightenment that emerge when we discard the fiction that the teacher has no body Visible and or invisible the body can transform both the teacher s experience and classroom dynamics When students think the teacher s body is clearly marked by ethnicity race disability size gender sexuality illness age pregnancy class linguistic and geographic origins or some combination of these both the mode and the content of education can change Other less

visible aspects of a teacher's body such as depression or a history of sexual assault can have an equally powerful impact on how we teach and learn.
