Smoller,Franco Rongioletti,2010-09-28 It is a pleasure to introduce this new book Clinical and Pathological Aspects of Skin Diseases in Endocrine Metabolic Nutritional and Deposition Disease edited by two of my friends and respected colleagues Franco Rongioletti and Bruce R Smoller In fact I was very enthusiastic when I learned that they were preparing this work Although endocrine metabolic and deposition diseases are regularly included in general textbooks of dermatology and dermatopathology one gains the general impression that these topics receive little emphasis and are mainly included for completeness The prospect of having all of this information in one volume lovingly described and detailed by experts in the field should be of great interest not only to dermatologists pathologists and dermatopathologists but also to internists and endocrinologists who may well gain a different perspective on these disorders As a dermatopathologist I am also pleased that this project has been organized and undertaken by two distinguished authorities in cutaneous pathology This assures a close integration of histology and other laboratory techniques with the clinical aspects of these disorders which will make it possible perhaps for the first time to view these conditions in a truly comprehensive way So I invite you the reader to open this volume and dig in be prepared for an eye catching intellectually stimulating and ultimately rewarding experience Charlottesville VA James W Patterson v w Foreword II Dermatopathology is a bridge between Dermatology and Pathology [Nutrition and Disease Management for Veterinary Technicians and Nurses](#) Ann Wortinger,Kara M.
