Interests Generally Throughout the Americas, 1915 **Eleven Presidents** Ivan Eland, 2017-11-01 Presidents who claimed to limit government often actually did the opposite History often looks unfavorably on presidents who may have actually contributed smart and important policies Were Harding and Coolidge really as ineffective as their reputations maintain Did Hoover not do enough to end the Depression Was Reagan a true champion of small government conservatism We all know that the American president is one of the most powerful people in the world But to understand the presidency today we often have to learn from the past Author Ivan Eland offers a new perspective in *Eleven Presidents* on the evolution of the executive office by exploring the policies of eleven key presidents who held office over the last one hundred years Warren G Harding Calvin Coolidge Herbert Hoover Dwight D Eisenhower Richard Nixon Gerald Ford Jimmy Carter Ronald Reagan George H W Bush Bill Clinton and George W Bush The book combines an exploration of how political currents shape historical legacies with an in depth analysis of presidents actual policies An important revealing book about the presidency

legacy and the formation of history Eleven Presidents is essential reading for understanding the American presidency
