The New York Times Encyclopedia of Film: 1964-1968 Gene Brown,1984 **The New York Times Encyclopedia of Film** Gene Brown,1984 Doing Their Bit Michael S. Shull,David E. Wilt,2014-05-23 The golden age of animation stretched from the early 1930s to the mid 1950s with movie cartoons reaching an extraordinarily high level of artistry and technique far higher than today s TV cartoons for instance Nearly 1000 cartoons were produced by the seven major animation studios in the U S between January 1 1939 and September 30 1945 the immediate pre World War II period up to the cessation of hostilities More than a quarter of the cartoons substantially refer to the war and thereby are invaluable in helping to understand American attitudes and Hollywood s reflection of them The meat of Doing Their Bit is a filmography with extremely detailed summaries of the 260 or so commercially produced animated war related shorts 1939 1945 There is also a good bit of overall commentary on these films as a group Two chapters wrap up animated cartoons of World War I and the general political tenor of animated talkies of the 1930s This edition also includes a new chapter on the outrageous government sponsored Pvt Snafus A Short History of Film, Fourth Edition Wheeler Winston Dixon,Gwendolyn Audrey Foster,2025-10-14 This updated and expanded edition of A Short History of Film provides an accessible overview of the major movements directors studios and genres from the 1880s to the present Succinct yet comprehensive with more than 250 rare stills and illustrations it brings readers face to face with many of the key players and films that have shaped the industry Beginning with the precursors of moving pictures Wheeler Winston Dixon and Gwendolyn Audrey Foster lead a fast paced tour through the invention of the kinetoscope the introduction of sound and color between the two world wars and ultimately the computer generated imagery of the present day They detail significant periods in world cinema including the creation of early major industries in Europe the dominance of the Hollywood studio system in the 1930s and 1940s and the French New Wave of the 1960s They also highlight independent efforts in developing nations and the corresponding more personal independent film movement that briefly flourished in the United States Along the way the authors incorporate the stories of women and other minority filmmakers who have often been overlooked in other texts Compact and easily readable this is a vital history of international cinema is a one stop resource for students teachers and general readers alike **Royal Portraits in Hollywood** Elizabeth Ford,2009-06-26 In the history of cinema many film genres have gained and lost popularity with the changing times but one has maintained its supreme reign the royal biopic In Royal Portraits in Hollywood Filming the Lives of Queens authors Elizabeth A Ford and Deborah C Mitchell follow the lives of historical queens as depicted on film from the 1930s to the present Women as diverse as Catherine the Great Cleopatra Mary Stuart and Marie Antoinette have been represented on the silver screen dominating the masculine world of politics while maintaining their femininity During the golden age of American film these roles gave Hollywood a means of portraying powerful women without threatening the patriarchal social order Depictions of the lives of queens have progressed from idealized and romanticized

portraits to the more personal complex portrayals of modern Hollywood. By walking the line between fact and fiction these royal portraits of queens reveal just as much about our society as they do about the historical periods they represent. Audiences are drawn to the theaters year after year because the lives of queens promise good drama and attract some of the most talented actresses. The success of Hollywood's leading ladies in playing queens further solidifies the link between Hollywood royalty and authentic royalty. Actresses such as Bette Davis, Judy Dench, Helen Mirren, Elizabeth Taylor, and Greta Garbo have done more than influence the way we imagine historical queens; they also have changed how we perceive women in powerful positions today.

Royal Portraits in Hollywood analyzes seventy-five years of films about queens as well as the lives of the actresses who starred in them. Combining biographical sketches and excerpts from letters and journals, Ford and Mitchell show how filmmaking and our society's perceptions of gender have changed. The authors compare Hollywood's on-screen portrayals to the historical records, often drawing connections to the actresses' careers and personal lives. This comprehensive analysis provides a more complete picture of the lives that take place behind the thrones, both real and fictional. The spectacle of a woman dressed in the full regalia of power remains a compelling image in our society. Hollywood actresses and the queens they portray are women who wield power, and by examining the lives of these women, the authors reveal not only society's perceptions about female power but also how those perceptions continue to evolve.

How to Read a Film James Monaco, 1981. Now thoroughly revised and updated, the book discusses recent breakthroughs in media technology, including such exciting advances as video discs and cassettes, two-way television, satellites, cable, and much more. *New York Times Encyclopedia of Film: 1941-1946* Times NY, York Times New, 1987-10-01. First published in 1987, Routledge is an imprint of Taylor Francis, an information company. *Monographic Series* Library of Congress, 1980. *The New York Times Encyclopedia of Film: 1896-1928* Gene Brown, 1984. *The 1960s on Film* Jim Willis, Mark Miller, 2021-10-11. *The 1960s on Film* tells the narrative of the 1960s through the lens of the movie camera, analyzing 10 films that focus on the people, events, and issues of the decade. Films create both an impression of and, at times, for younger audiences, a primary definition of events, people, and issues of an era. *The 1960s on Film* examines the 1960s as the decade was presented in ten films that focused on that decade. This book analyzes both what the films have to say about the era and how close they come to accurately depicting it. For example, films such as *Mississippi Burning* and *Selma* tell the story of racial conflict and hope for reconciliation in the 1960s. Other films such as *The Right Stuff* and *Hidden Figures* show the deep fascination America had at that time with the burgeoning space program and NASA, while *Easy Rider* analyzes the role of rock music and drugs among young people of the decade. *The Deer Hunter* studies the controversies surrounding the war in Vietnam.
