Rebellion And Violence In Islamic Law:

Rebellion and Violence in Islamic Law Khaled Abou El Fadl, 2001-11-01 Khaled Abou El Fadl's book represents the first systematic examination of the idea and treatment of political resistance and rebellion in Islamic law. Pre-modern jurists produced an extensive and sophisticated discourse on the legality of rebellion and the treatment due to rebels under Islamic law. The book examines the emergence and development of these discourses from the eighth to the fifteenth centuries and considers juristic responses to the various terror-inducing strategies employed by rebels including assassination, stealth attacks, and rape. The study demonstrates how Muslim jurists went about restructuring several competing doctrinal sources in order to construct a highly technical discourse on rebellion. Indeed, many of these rulings may have a profound influence on contemporary practices. This is an important and challenging book which sheds light on the complexities of Islamic law and pre-modern attitudes to dissidence and rebellion. *War and Law in the Islamic World* Matthias Vanhullebusch, 2015-06-05 A three-part investigation on the origins and evolving roles that Islamic law and international humanitarian law have played in regulating conflict and violence. *War and Law in the Islamic World* brings to light legal and policy complexities that plague modern-day armed conflict in the region. **Routledge Handbook of Islamic Law** Khaled Abou El Fadl, Ahmad Atif Ahmad, Said Fares Hassan, 2019-05-10 This handbook is a detailed reference source comprising original articles covering the origins, history, theory, and practice of Islamic law. The handbook starts out by dealing with the question of what type of law is Islamic law and includes a critical analysis of the pedagogical approaches to studying and analysing Islamic law as a discipline. The handbook covers a broad range of issues including the role of ethics in Islamic jurisprudence, the mechanics and processes of interpretation, the purposes and objectives of Islamic law, constitutional law, and secularism, gender, bioethics, Muslim minorities in the West, jihad, and terrorism. Previous publications on this topic have approached Islamic law from a variety of disciplinary and pedagogical perspectives. One of the original features of this handbook is that it treats Islamic law as a legal discipline by taking into account the historical functions and processes of legal cultures and the patterns of legal thought. With contributions from a selection of highly regarded and leading scholars in this field, the *Routledge Handbook of Islamic Law* is an essential resource for students and scholars who are interested in the field of Islamic Law. [Islamic Public Law - Islamic Law in Theory and Practice](#) Ahmed Akgunduz, 2011-11-01 Islamic law contains explications and divisions that imply a classification in terms of public and private law. In this book, we will explain the outlines of Islamic public law, e.g. First Chapter: Islamic constitutional law (al-siyasah al-shariyyah) and administrative law (al-siyasah al-shariyyah). Second Chapter: penal law (al-uqubah). Third Chapter: financial law (zakat, ushr, arj, and other taxes). Fourth Chapter: trial law (qada) and Fifth Chapter: international public law (al-siyar). The fields of especially Islamic constitutional law, administrative law, financial law, tazir, penalties, and arrangements concerning military law based on the restricted legislative authority vested by Shariah rules and those jurisprudential decrees based on secondary sources like customs and traditions and the public good (maslahah) all

fell under what was variously called public law *al siy saḥ al sharʿiyyah* Sharʿah policy *qānūn al sharʿ* legal code *qānūn al maḥall* or *qānūn al ʿam* etc. Since these laws could not go beyond Sharʿah principles either at least in theory they should not be regarded as a legal system outside of Islamic law. But Islamic penal law, financial law, trial law and international law depend mostly on rules that are based directly on the Qurʾān and the Sunnah and codified in books of fiqh. Islamic law called Sharʿah rules, Sharʿi sharʿf or Sharʿah law. Such rules formed 85% of the legal system. In this book we will focus on some controversial problems in the Muslim world today such as the form of government in Islamic law and the relation between Islam and democracy. Islamic law does not stipulate a certain method of state government; nonetheless we may say that the principles it decrees and its concept of sovereignty suggest a religious republic. As a matter of fact, *ulaf al Rashid* the Rightly Guided Caliphs were both caliphs and religious republican presidents. We could say that this book has three main characteristics: i We have tried to base our explanations directly on the primary Islamic law sources. For example, after reading some articles on the caliphate or *tamr* system in articles or books by some Western scholars and even by some Muslim scholars, one might conclude that there are different views on these subjects among Muslim scholars. This is not true. Muslims have agreed on the basic rules on legal subjects but there are some conflicts regarding nuances and interpretations. If one reads works by *Imām Gazzālī*, *Ibn Taymiyyah*, *al Mawardi* and *al Farrā*, one will not find any disagreement on the main rules but there are some different interpretations of some concepts. We have tried to discover where they agreed and we have sometimes pointed to where they differed. ii We have researched practices of Islamic law, especially legal documents in the Ottoman archives. For example, we explain *add-i sariqa* but also mention some legal articles from the Ottoman legal codes *qānūn nāmes* and some Sharʿah court decisions like legal decrees *ilmiyyat* in Sharʿiyyah. It is well known that nobody can understand any legal system without implementing and practicing it. That also holds for Islamic law because theory alone does not yield a complete understanding of Sharʿah rules. iii We have worked hard to correct some misconceptions and misunderstandings about Islamic law. That is why we appeal to the primary sources. For example, some scholars claim that the *anafī* jurist *Imām Sarakṣī* did not accept the idea of punishment for apostasy. We have studied his work *al Maḥab* and found this claim to be unfounded. The comparison between *tamr* and *fief* is another example because the *tamr* system is different from the *fief* system. Some scholars confuse the concept of sovereignty and governance. The Islamic state is not a theocratic state in the sense in which Europeans understand the term. Islamic Jihadism and the Laws of War Omar Mekky, 2023-07-21. The rapid rise of global Islamic Jihadism in the past few decades and the limited success of the anti-terror campaign in halting its expansion have raised hard-hitting questions about how different political actors might preserve and restore the world's peace and security. Since the end of the Second World War, international law has often been the chief instrument employed to address global conundrums of this kind. Nevertheless, international law alone cannot solve this problem. Jihadist groups often cite Islamic law argumentations to justify their combat-related actions against states while rejecting traditional international law rules. On the

other hand some states themselves ignore traditional international law rules to apply their so called counterterrorism measures The internationally recognized laws of war created to protect those who do not participate in hostilities are constantly challenged by jihadist groups and responding states in justification of their combat actions In Islamic Jihadism and the Laws of War Dr Omar Mekky explores both sides legal frameworks synthesising findings from both English and Arabic sources Drawing from the author s field expertise as a legal advisor in the Middle East and North Africa the book narrates how Islamic Jihadism began and evolved outlines the laws jihadists apply during combat addresses how states often react in their fights against jihadist groups and aims for a pragmatic humanitarian legal formula An essential resource for legal professionals policymakers academics and students Mekky s book initiates a constructive dialogue between international law and Islamic law

Religious Pluralism and Islamic Law Anver M. Emon,2012-07-26 The question of tolerance and Islam is not a new

one Polemicists are certain that Islam is not a tolerant religion As evidence they point to the rules governing the treatment of non Muslim permanent residents in Muslim lands namely the dhimmi rules that are at the center of this study These rules when read in isolation are certainly discriminatory in nature They legitimate discriminatory treatment on grounds of what could be said to be religious faith and religious difference The dhimmi rules are often invoked as proof positive of the inherent intolerance of the Islamic faith and thereby of any believing Muslim toward the non Muslim This book addresses the problem of the concept of tolerance for understanding the significance of the dhimmi rules that governed and regulated non Muslim permanent residents in Islamic lands In doing so it suggests that the Islamic legal treatment of non Muslims is symptomatic of the more general challenge of governing a diverse polity Far from being constitutive of an Islamic ethos the dhimmi rules raise important thematic questions about Rule of Law governance and how the pursuit of pluralism through the institutions of law and governance is a messy business As argued throughout this book an inescapable and all too often painful bottom line in the pursuit of pluralism is that it requires impositions and limitations on freedoms that are considered central and fundamental to an individual s well being but which must be limited for some people in some circumstances for reasons extending well beyond the claims of a given individual A comparison to recent cases from the United States United Kingdom and the European Court of Human Rights reveals that however different and distant premodern Islamic and modern democratic societies may be in terms of time space and values legal systems face similar challenges when governing a populace in which minority and majority groups diverge on the meaning and implication of values deemed fundamental to a particular polity

The Shari'a and Islamic Criminal Justice in Time of War and Peace M. Cherif Bassiouni, 2014 Shows that the shari a and Islamic law are compatible with contemporary international human rights laws and norms and appropriate for use in Muslim societies

The Princeton Encyclopedia of Islamic Political Thought Gerhard Bowering, Patricia Crone, Mahan Mirza, 2013 In 2012 the year 1433 of the Muslim calendar the Islamic population throughout the world was estimated at approximately a billion and a half representing about one fifth of humanity In geographical terms Islam occupies the center of the world stretching like a big belt across the globe from east to west P vii

Islamic Jurisprudence on the Regulation of Armed Conflict Nesrine Badawi, 2019-10-01 In Islamic Jurisprudence on the Regulation of Armed Conflict Text and Context Nesrine Badawi argues against the existence of a true interpretation of the rules regulating armed conflict in Islamic law In a survey of formative and modern seminal legal works on the subject the author sheds light on the role played by the sociopolitical context in shaping this branch of jurisprudence and offers a detailed examination of the internal deductive structures of these works

Islamic Liberalism

Halil Ibrahim Canbegi,2025-07-10 In Islamic Liberalism A Theory of Impossibility based on the Lockean Tradition Halil Ibrahim Canbegi investigates the inherent inconsistencies of Islamic liberalism by examining the philosophical and theological foundations of both liberalism and Islam Canbegi draws on Lockean liberalism asserting that John Locke s emerging liberalism is deeply rooted in theological concepts such as covenant theology natural law and the distinctive nature of Christianity itself In contrast the author argues that Islam lacks the necessary theological and intellectual framework to develop a coherent version of liberalism often termed Islamic liberalism Canbegi maintains that this concept merely represents a superficial juxtaposition of Islam and liberalism rather than a genuine synthesis Ultimately the author concludes that Islamic liberalism is merely a heterogeneous amalgamation of Islamic and liberal ideas which do not combine into a unified whole This critical analysis challenges prevailing notions and invites readers to reconsider the complex relationship between these two influential systems of thought

The Princes of the Mughal Empire, 1504-1719 Munis D. Faruqi,2012-08-27 For more than 200 years the Mughal emperors ruled supreme in northern India How was it possible that a Muslim ethnically Turkish Persian speaking dynasty established itself in the Indian subcontinent to become one of the largest and most dynamic empires on earth In this rigorous new interpretation of the period Munis D Faruqi explores Mughal state formation through the pivotal role of the Mughal princes In a challenge to previous scholarship the book suggests that far from undermining the foundations of empire the court intrigues and political backbiting that were features of Mughal political life and that frequently resulted in rebellions and wars of succession actually helped spread deepen and mobilise Mughal power through an empire wide network of friends and allies This engaging book which uses a vast archive of European and Persian sources takes the reader from the founding of the empire under Babur to its decline in the 1700s **Ibn Ḥazm of Cordoba** Camilla Adang,Maribel Fierro,Sabine Schmidtke,2012-12-10 This volume represents the state of the art in research on the controversial Muslim legal scholar theologian and man of letters Ibn azm of Cordoba d 456 1064 who is widely regarded as one of the most brilliant minds of Islamic Spain Remembered mostly for his charming treatise on love he was first and foremost a fierce polemicist who was much criticized for his idiosyncratic views and his abrasive language Insisting that the sacred sources of Islam are to be understood in their outward sense and that it is only the Prophet Mu ammad whose example may be followed Ibn azm alienated himself from his peers As a result his books were burned and he was forced to withdraw from public life
