Memories Of A Mountain War Greece 1944 1949:

Memories of a Mountain War: Greece Kenneth Matthews, 1972 *Moscow and Greek Communism, 1944-1949* Peter J. Stavrakis, 2018-09-05 *Moscow and Greek Communism* is the first comprehensive analysis of Soviet conduct in Greece during the most critical period of Greek history in this century the last months of World War II and the years of the Greek Civil War Peter J Stavrakis demonstrates that Soviet policy in Greece was highly mutable and reveals how its shifts were governed by Moscow's changing aims in the Near East generally Soviet policy toward the Western powers and the constantly changing Greek political situation Stavrakis draws on previously inaccessible evidence from Greek Communist archives recently declassified materials from the U S National Archives documents from British archives and personal memoirs of former Greek partisans to create the most accurate picture available of developments in the Balkans between 1944 and 1949 He traces the course of Soviet policy explaining why Stalin vacillated in his attitude toward the armed insurgency of the Greek Communist party KKE finally acting in a way that ensured its defeat Students of Soviet foreign policy will want to consider his thesis that the lessons learned in Greece have continued to guide Soviet interventionism in regions where its capabilities for control are limited "A New Kind of War" Howard Jones, 1997-05-15 America's experience in Greece has often been cited as a model by those later policymakers in Washington who regard the involvement as a victory for American foreign policy Indeed President Johnson and others referred to Greece as the model for America's deepening involvement in Vietnam during the mid 1960's Greece became the battlefield for a new kind of war one that included the use of guerrilla warfare propaganda war in the shadows terror tactics and victory based on outlasting the enemy It was also a test before the world of America's resolve to protect the principle of self-determination Jones argues that American policy towards Greece was the focal point in the development of a global strategy designed to combat totalitarianism He also argues that had the White House and others drawn the real lessons from the intervention in Greece the decisions regarding Vietnam might have been more carefully thought out **The Battle for Bodies, Hearts and Minds in Postwar Greece** Gonda Van Steen, 2023-12-01 The previously unpublished memoir of social worker Charles Schermerhorn offers new and eye-opening source material pertaining to the epicenter of the early Cold War northern Greece This book brings this memoir to light to enrich the discussion about the Greek Civil War and the late 1940s through the highly perceptive views of a firsthand observer of the turmoil Schermerhorn's writings speak most compellingly to the power of human agency amid adverse sociopolitical circumstances His memoir takes a child-centered and social-historical approach to controversial events filling a great void in our knowledge This book looks at a single mid-twentieth-century crisis in multidimensional ways as a moral material social and institutional calamity that mobilized a motley crew of actors from new humanitarian aid organizations to press agents from soldiers to destitute repeat refugees from fledgling modern missionaries to foreign diplomats and economic strategists It was Schermerhorn's unique achievement to interact with them all seeking common ground in the

arduous task of trying to improve living conditions for children and rural families But he also realized how easily foreign aid could become a tool of political power and expediency Focusing on the Greek Civil War this book will interest readers studying the Cold War the heated peripheries of proxy wars and the devastating social fallout of conflicts raging in areas hidden from public view The global history of humanitarian crises is a burgeoning field and Schermerhorn was the first to place Greek children and villagers who themselves left hardly any sources behind at the center of this urgent and ever relevant debate **An International Civil War** André Gerolymatos,2016-01-01 Notes Bibliography Index A B C D E F G H I

J K L M N O P R S T U V W X Y Z **The British Press and the Greek Crisis, 1943-1949** Gioula

Koutsopanagou,2020-02-01 This book provides the first detailed analysis of how interactions between government policy and Fleet Street affected the political coverage of the Greek civil war one of the first major confrontations of the Cold War During this period the exponential growth of media influence was an immensely potent weapon of psychological warfare Throughout the 1940s the press maintained its position as the most powerful medium and its influence remained unchallenged The documentary record shows that a British media consensus was more fabricated than spontaneous and the tools of media persuasion and manipulation were extremely important in building acceptance for British foreign policy Gioula

Koutsopanagou examines how this media consensus was influenced and molded by the British government and how Foreign Office channels were key to molding public attitudes to British foreign policy These channels included system of briefings given by the News Department to the diplomatic correspondents and the contacts between embassies and the British foreign correspondents **The Roots and Consequences of 20th-Century Warfare** Spencer C. Tucker,2016-09-06 This unique

reference book introduces readers to the causes and effects of the 20th century s most significant conflicts and explains how the impact of these conflicts still resonates today The Roots and Consequences of 20th Century Warfare Conflicts That Shaped the Modern World introduces students to the causes and effects of the 20th century s most significant conflicts Covering conflicts that occurred in all regions of the world readers will gain knowledge on the causes and consequences of each conflict and become familiar with the historical context needed to understand the roots and consequences of these seminal events The text also identifies key opponents in each conflict and illuminates the reasons why each country or group decided to fight the scope of their involvement in the war and the impact of the war Reference entries on key battles are presented in chronological order supplying engaging details on the events and people who shaped each war The book also supplies maps of the key battles to illuminate the strategic movements of both sides of the conflict A lengthy bibliography offers a wealth of options to readers seeking more sources of information on any of the conflicts *The Greeks* James Pettifer,2012-05-03 Our perception of Greece conjures up many potent images an ancient civilization brought alive by fable hillsides dotted with sunbaked villages lazy beaches lapped by crystal blue waters the warmth and humour of its people Yet if we look behind the picture postcard imagery the painful contradictions of the country begin to emerge James Pettifer s

classic text on Greece now revised and updated with extensive new material argues that it is vital to understand this country's present by looking at the far reaching effects of its troubled past. He surveys the roots of Greek social, economic and political realities with intelligence and convincing clarity. **Genocide Perspectives IV** Colin Tatz, 2012-01-01. Genocide isn't past tense and the Nazi and Bosnian eras are not yet closed. The demonising of people as unworthy and expendable is ever present and the consequences are all too evident in the daily news. These fourteen essays by Australian scholars confront the issues: the need for a measuring scale that encompasses differences and similarities between seemingly divergent cases of the crime; the complicity of bureaucracies, the healing professions and the churches in this crime of crimes; the quest for historical justice for genocide victims generally following the Nuremberg Trials; the fate of children in the Nazi and postwar eras; the worthiness of Armenians, Jews and Romani people in twentieth century Europe; and the imperative to tackle early warning signs of an incipient genocide. Colin Tatz is a founding director of the Australian Institute for Holocaust and Genocide Studies, visiting fellow in Politics and International Relations at the Australian National University, and honorary visiting fellow at the Australian Institute of Aboriginal and Torres Strait Islander Studies. He teaches and publishes in comparative race politics, youth suicide, migration studies and sports history. **The Macedonians** E.

Damianopoulos, 2012-02-14. Overturning the 20th century's prevalent view of the Macedonians, Damianopoulos uses three domains of evidence: historical documentation, cognitive self-descriptor reports, and sociocultural features to demonstrate that the Macedonians are a unique non-Slav, non-Greek ethnic identity. **Death by Government** R. J. Rummel, 1997-01-01. This is R. J. Rummel's fourth book in a series devoted to genocide and government mass murder, or what he calls democide. He presents the primary results in tables and figures, as well as a historical sketch of the major cases of democide: those in which one million or more people were killed by a regime. In *Death by Government*, Rummel does not aim to describe democide itself but to determine its nature and scope in order to test the theory that democracies are inherently nonviolent. Rummel discusses genocide in China, Nazi Germany, Japan, Cambodia, Turkey, Yugoslavia, Poland, the Soviet Union, and Pakistan. He also writes about areas of suspected genocide: North Korea, Mexico, and feudal Russia. His results clearly and decisively show that democracies commit less democide than other regimes. The underlying principle is that the less freedom people have, the greater the violence; the more freedom, the less the violence. Thus, as Rummel says, 'The problem is power. The solution is democracy. The course of action is to foster freedom.' *Death by Government* is a compelling look at the horrors that occur in modern societies. It depicts how democide has been very much a part of human history. Among other examples, the book includes the massacre of Europeans during the Thirty Years War, the relatively unknown genocide of the French Revolution, and the slaughtering of American Indians by colonists in the New World. This riveting account is an essential tool for historians, political scientists, and scholars interested in the study of genocide. **Intervention and Disarmament** Philip Towle, 2022-05-05. In this book, some of Philip Towle's major contributions are brought together to shed light on the Cold War.

and its aftermath Topics include the build up of chemical and nuclear weapons the attack on New York's World Trade Center in 2001 intervention in overseas conflicts and the role of the Church The first section concentrates on the ways in which the West has interfered in conflicts around the world from the Vietnam War to Bosnia Afghanistan and Iraq and explains why intervention worked in former Yugoslavia but not in countries such as Vietnam Afghanistan or Libya The second section focuses on arms control and disarmament how they were linked to intervention particularly through the fear of terrorism and how and why some arms control measures succeeded and some did not Intervention and Disarmament In a Culturally Diverse World is useful for postgraduates and scholars interested in international affairs and warfare in the modern world

Crucible Jonathan Fenby, 2018-06-28 The Times Book of the Year BBC History Magazine Book of the Year Daily Telegraph Book of the Year BOOK OF THE WEEK The Times The strength of this book lies in the cold realities it delivers The thirteen months of 1947-48 writes Fenby provide trenchant examples of how realpolitik can serve a wider purpose if those in power know how to use it Crucible captures perfectly the urgency of the time Read this book for the light it shines on a turbulent time cherish it for the lessons it provides Gerard DeGroot Looking back 70 years Jonathan Fenby argues convincingly that the period from 1947 to 1948 really did change the world His book is an assured gallop across the terrain of contemporary history in this fateful year The global devastation of the second world war had smashed longstanding institutions and bankrupted empires leaving behind the kind of power vacuums that were major openings for change and chaos Crucible swings from one region to the next in a fast moving account of how local actors filled those vacuums often with violence Mary Sarote Financial Times One year shaped the world we know today This is the page turning story of the pivotal changes which were forged in the space of thirteen months of 1947-48 Two years after the end of the second conflict to engulf the world in twenty years and the defeat of the Axis forces of Germany Italy and Japan this momentous time saw the unrolling of the Cold War between Joseph Stalin's Soviet Russia and the Western powers under the untried leadership of Harry Truman as America came to play a global role for the first time The British Empire began its demise with the birth of the Indian and Pakistan republics with the flight of millions and wholesale slaughter as Vietnam Indonesia and other colonies around the globe vied for freedom 1948 also marked the creation of the state of Israel the refugee flight of Palestinians and the first Arab Israeli war as well as the victories of Communist armies that led to their final triumph in China the coming of apartheid to South Africa the division of Korea major technological change and the rolling out of the welfare state against a backdrop of events that ensured the global order would never be the same again This dynamic narrative spans the planet with overlapping epic episodes featuring such historic figures as Truman and Marshall Stalin and Molotov Attlee and Bevin De Gaulle and Adenauer Mao Zedong and Chiang Kai-shek Nehru and Jinnah Ben Gurion and the Arab leaders Between them they forged the path to our modern world *Lakes and Empires in Macedonian History* James Pettifer, Miranda Vickers, 2021-08-26 *Lakes and Empires in Macedonian History* Contesting the Waters tells the story of Psarades a lakeside

village in Macedonian Greece on the shores of the Prespa lake This village which is in many ways a completely typical Greek settlement and yet remains unconventional in its way of life embodies the many contradictions of modern history and in exploring its roots James Pettifer and Miranda Vickers skilfully uncover the wider social cultural and political history of this lake region Drawing from oral testimonies and attentive to the construction of national histories this book considers how the development of international borders movement of people and role of national identities within imperial borderlands shaped Macedonia today What is more by centering the lakes and making use of an innovative environmental historical methodology Pettifer and Vickers offer the first environmental history of this multi ethnic borderland region shared by Greece North Macedonia and Albania The result is a nuanced and sophisticated transnational account of Macedonia from prehistory to the 21st century which will be essential reading for all Balkan scholars
