Antología personal Juan Rulfo, 1988 Las voces de los seres que habitan como apariciones la obra de Juan Rulfo son voces que sin saberlo conocimos desde siempre. Son los murmullos, son las imprecaciones, el dolor, las esperanzas, las preguntas del México profundo. Así nos han dado esta tierra. Y en este comal acalorado quieren que sembremos semillas de algo para ver si algo retoña y se levanta. Pero nada se levanta de aquí. Ni zopilotes. Uno los ve allí cada y cuando muy arriba volando a la carrera tratando de salir lo más pronto posible de este blanco terrenal endurecido donde nada se mueve y por donde uno camina reculando. Melitón dice: Esta es la tierra que nos han dado. La prosa más parca y más desolada de la literatura mexicana es también la más hermosa, la más poética. Cada lector recuerda pasajes y personajes inolvidables de la obra rulfiana, pero lo que encontrar en este volumen es la selección que hizo Juan Rulfo de las páginas que a él mismo más de su

questions around science and faith They haven't gone away as some predicted they might in fact we seem to talk about them more than ever Far from being a spent force religion continues to grow around the world Meanwhile Richard Dawkins and the New Atheists argue that religion is at war with science and that we have to choose between them It's time to consider a different way of looking at these two great cultural forces What if science and faith might enrich each other What if they can together give us a deep and satisfying understanding of life Alister McGrath one of the world's leading authorities on science and religion engages with the big questions that Dawkins and others have raised including origins the burden of proof the meaning of life the existence of God and our place in the universe Informed by the best and latest scholarship *Inventing the Universe* is a groundbreaking new primer for the complex yet fascinating relationship between science and faith

Jorge Luis Borges: The Last Interview Jorge Luis Borges, 2013-06-25 Believe me the benefits of blindness have been greatly exaggerated If I could see I would never leave the house I'd stay indoors reading the many books that surround me Jorge Luis Borges Days before his death Borges gave an intimate interview to his friend the Argentine journalist Gloria Lopez Lecube That interview is translated for the first time here giving English language readers a new insight into his life loves and thoughts about his work and country at the end of his life Accompanying that interview are a selection of the fascinating interviews he gave throughout his career Highlights include his celebrated conversations with Richard Burgin during Borges's time as a lecturer at Harvard University in which he gives rich new insights into his own works and the literature of others as well as discussing his now oft overlooked political views The pieces combine to give a new and revealing window on one of the most celebrated cultural figures of the past century

The Big Question Alister McGrath, 2024-03-26 McGrath calls for a full bodied humanism invigorated by both scientific reasoning and religious devotion Profound engagement with life defining issues Booklist Richard Dawkins's groundbreaking book *The God Delusion* created an explosion of interest in the relation of science and faith This often troubled relationship between science and religion was seemingly damaged by the rise of the New Atheism which insisted that science had essentially disproved not just God but also the value of religion There is increasing skepticism towards its often glib and superficial answers and the big questions about faith God and science haven't gone away in fact we seem to talk about them more than ever Alister McGrath's *The Big Question* is an accessible engaging account of how science relates to faith exploring how the working methods and assumptions of the natural sciences can be theologically useful McGrath uses stories and analogies as well as personal accounts in order to help

readers understand the scientific and theological points he makes and grasp their deeper significance An extremely accomplished scientist and scholar McGrath criticizes the evangelism of the New Atheists and paves a logical well argued road to the compatibility between science and faith Some of his main discussion points include There is much more convergence between science and faith than is usually appreciated How the three great models of scientific explanation can be adapted to religious belief Belief in God provides a big picture of reality making sense of science s successes Another deeply felt entry on two divergent yet ultimately compatible ways of engaging the world and understanding reality Kirkus Reviews
