Nállim, 2014-08-14 Nállim chronicles the decline of liberalism in Argentina during the volatile period between two military coups the 1930 overthrow of Hipólito Yrigoyen and the deposing of Juan Perón in 1955 While historians have primarily focused on liberalism in economic or political contexts Nállim instead documents a wide range of locations where liberalism was claimed and ultimately marginalized in the pursuit of individual agendas Nállim shows how concepts of liberalism were espoused by various groups who invented traditions to legitimize their methods of political religious class intellectual or cultural hegemony In these deeply fractured and corrupt processes liberalism lost political favor and alienated the public These events also set the table for Peronism and stifled the future of progressive liberalism in Argentina Nállim describes the main political parties of the period and deconstructs their liberal discourses He also examines major cultural institutions and shows how each attached liberalism to their cause Nállim compares and contrasts the events in Argentina to those in other Latin American nations and reveals their links to international developments While critics have positioned the rhetoric of liberalism during this period as one of decadence or irrelevance Nállim instead shows it to be a vital and complex factor in the metamorphosis of modern history in Argentina and Latin America as well *A History of Argentina* Ezequiel Adamovsky, 2024-01-05 In *A History of Argentina* originally published in Spanish in 2020 Ezequiel Adamovsky presents over five hundred years of Argentine economic political social and cultural history Adamovsky highlights the experiences of women Indigenous communities and other groups that have traditionally been left out of the historical archive He focuses on harmful aspects of Spanish colonization such as gender subjugation the violence enacted in the name of the Catholic Church the role of the economy as it shifted from the encomienda system into modern industrialization and the devastating effects of slavery violence and disease brought to the region by Spanish colonizers Adamovsky also discusses Argentina's independence and territorial

consolidation the first democratic elections in 1916 military coups Peronism democratization and the neoliberal reforms of the 1980s and many other facets of Argentine life up to the 2019 presidential election Concise accessible and comprehensive A History of Argentina is an essential guide to this nation *Nueva historia argentina* Myriam Noemí Tarrago, Enrique Tandeter, 1998 Este volumen de la Nueva Historia Argentina estudia el pasado prehispánico A lo largo de nueve capítulos se pone de relieve el poblamiento y la ocupación de los diversos territorios desde hace 13 000 años por poblaciones nativas que desplegaron un aprovechamiento creativo de ambientes y recursos generando modalidades y formas de vida diferentes También se pone énfasis en las transformaciones representadas por la incorporación entre 4 000 y 2 000 años atrás de la producción de alimentos en amplias regiones del norte y centro de nuestro país así como la creciente complejidad social desarrollada en el último milenio anterior a la llegada de los españoles La conquista se refiere particularmente a la penetración y dominación europea a partir del siglo XVI Pero también alude a la conquista previa de los territorios del norte por parte del Inca el gran estado andino que se expandió por las tierras de Chile y de Argentina hasta Santiago y Mendoza Finalmente se considera el proceso colonial que poco a poco fue avanzando sobre los pueblos nativos hasta incorporarlos a su sistema económico con todos los efectos de desestructuración y cambio que esto implica Por estas razones el volumen finaliza con un capítulo destinado a destacar el dinamismo y la creatividad de la sociedad y la economía indígenas a través de la frontera Historia argentina prehispánica Eduardo E. Berberían, Axel E. Nielsen, 2001 *Colonialism and Postcolonial Development* James Mahoney, 2010-02-15 In this comparative historical analysis of Spanish America Mahoney offers a new theory of colonialism and postcolonial development He explores why certain kinds of societies are subject to certain kinds of colonialism and why these forms of colonialism give rise to countries with differing levels of economic prosperity and social well being Mahoney contends that differences in the extent of colonialism are best explained by the potentially evolving fit between the institutions of the colonizing nation and those of the colonized society Moreover he shows how institutions forged under colonialism bring countries to relative levels of development that may prove remarkably enduring in the postcolonial period The argument is sure to stir discussion and debate both among experts on Spanish America who believe that development is not tightly bound by the colonial past and among scholars of colonialism who suggest that the institutional identity of the colonizing nation is of little consequence **The Routledge International Handbook of Religious Education** Derek Davis, Elena Mikhaïlovna Miroshnikova, 2013 How and what to teach about religion is controversial in every country The Routledge International Handbook of Religious Education is the first book to comprehensively address the range of ways that major countries around the world teach religion in public and private educational institutions It discusses how three models in particular seem to dominate the landscape Countries with strong cultural traditions focused on a majority religion tend to adopt an identification model where instruction is provided only in the tenets of the majority religion often to the detriment of other religions and their adherents Countries with traditions that

differentiate church and state tend to adopt a separation model thus either offering instruction in a wide range of religions or in some cases teaching very little about religion intentionally leaving it to religious institutions and the home setting to provide religious instruction Still other countries attempt managed pluralism in which neither one nor many but rather a limited handful of major religious traditions are taught Inevitably there are countries which do not fit any of these dominant models and the range of methods touched upon in this book will surprise even the most enlightened reader Religious instruction by educational institutions in 53 countries and regions of the world are explored by experts native to each country These chapters discuss Legal parameters in terms of subjective versus objective instruction in religion Constitutional statutory social and political contexts to religious approaches Distinctions between the kinds of instruction permitted in elementary and secondary schools versus what is allowed in institutions of higher learning Regional assessments which provide a welcome overview and comparison This comprehensive and authoritative volume will appeal to educators scholars religious leaders politicians and others interested in how religion and education interface around the world
