Nuevos Horizontes:

Democracy, Multiculturalism, and the Community College Robert A. Rhoads, James R. Valadez, 2016-05-06 Based on five organizational case studies this book argues that community colleges face an identity crisis and must find ways of balancing the three traditional roles typically assumed by them transfer vocational and community education To emphasize one at the expense of another is to fail to meet the diverse needs of students who look to the community college as a source of opportunity and social mobility In addition community colleges must create an organizational context in which opportunities exist for culturally diverse students to participate as full members in the educational process The study uses democratic educational strategies first suggested by John Dewey as a foundation for developing a critical multicultural view of community college education The authors argue that critical multiculturalism moves beyond liberal views of cultural diversity and challenge academic institutions to take advantage of the varied experiences and perspectives that students from other cultures bring to education The book includes a reference section following the final chapter and a name and subject index

En esta línea se recogen aquí innovaciones y experiencias relativas a la educación basada en la atención a la diversidad del alumnado, la organización de los espacios, el papel de la colaboración y el emprendimiento, la formación docente y el papel de las TIC en la sociedad de la información donde la seguridad digital desempeña un papel primordial. Nuevos horizontes educativos hacia la agenda 2030. Innovación docente y ODS en las aulas, 2024-12-11. En el primer cuarto del vigésimo siglo XXI el paradigma educativo se circunscribe a un entorno cambiante caracterizado por factores como la inmediatez, la celeridad, la sobreabundancia de información y el protagonismo de la digitalización, entre otros. Tal y como se señala Latorre (2021), uno de los principales desafíos de la educación de niños y jóvenes en el contexto actual radica en el desarrollo de competencias como la creatividad, la autonomía, la flexibilidad y el emprendimiento a través de modelos educativos y diseños curriculares que favorezcan la consecución de estos propósitos. Para dar respuesta a esta realidad se plantea la necesidad de actualizar las prioridades, los objetivos y la estructura del sistema educativo en un marco de referencia donde despunta la siguiente máxima: el siglo XXI demanda una institución educativa para el siglo XXI como subrayan González y Sanz (2016) al abordar los retos y las tensiones en torno al debate educativo en la actualidad. Así, la educación
