**Constructing Number** Anderson Norton, Martha W. Alibali, 2018-12-17 The book synergizes research on number across two disciplines mathematics education and psychology The underlying problem the book addresses is how the brain constructs number The opening chapter frames the problem in terms of children's activity including mental and physical actions Subsequent chapters are organized into sections that address specific domains of number natural numbers fractions and integers Chapters within each section address ways that children build upon biological primitives e.g. subitizing and prior constructs e.g. counting sequences to construct number The book relies on co-authored chapters and commentaries at the end of each section to create dialogue between junior faculty and senior researchers as well as between psychologists and mathematics educators The final chapter brings this work together around the framework of children's activity and additional themes that arise in the collective work The book is aimed to appeal to mathematics educators mathematics teacher educators mathematics education researchers educational psychologists cognitive psychologists and developmental psychologists

*Environmental Policy, Assessment and Communication* David Canter, Martin Krampen, David Stea, 2024-11-07 Originally published in 1988 reissued now with a new series introduction Environmental Policy Assessment and Communication was the second in a trilogy of books to open the series Ethnoscapes Current Challenges in the Environmental Social Sciences These three titles brought together specially commissioned contributions that cover much of the range of topics that the series as a whole would cover Although the following volumes would not have the same format the opening trilogy gave an overview of what was to come while also providing a broad base for the future authors to build upon This volume has a practical orientation Its contributions deal directly with research on those environmental matters on which government agencies and other organisations formulate policies or develop design strategies This therefore covers the assessment and evaluation of designs and design proposals as well as background research to policy issues

*Early Childhood Quality Rating Scale—Emergent Curriculum (ECQRS-EC)* Kathy Sylva, Iram Siraj, Brenda Taggart, Denise Kingston, Young children's learning depends on a wide range of experiences that support their holistic development While many different curricular frameworks are used around the world there is increasing agreement that the emerging academic skills of language and literacy mathematics and science should be supported by a playful pedagogy in the early years The Early Childhood Quality Rating Scale Emergent Curriculum ECQRS-EC is designed to measure quality in these key areas within preschool settings In addition to three content area subscales this evidence based tool includes a subscale dedicated to diversity and inclusion to help educators support gender and cultural differences in children 3-6 years old who are developing at different rates Because it recognizes the important role of the adult in providing children with high quality interactions this new quality rating scale can be used for research teacher self evaluation and program improvement audit and regulation Research that has worldwide significance is rare but the authors have strong credentials from decades of work on projects that have global relevance for

early years research policy and practice From the Foreword by W Steven Barnett and Ellen C Frede co directors National Institute for Early Education Research Rutgers This indispensable tool guides policymakers researchers and early childhood educators in how to achieve high quality learning situations Sonja Sheridan University of Gothenborg Sweden The research informed ECQRS EC enables a much needed objective assessment of pedagogy and learning environments an indispensable resource Nirmala Rao The University of Hong Kong The ECQRS EC is a gift for anyone dedicated to providing high quality early education and care Tara McLaughlin Massey University New Zealand      **Annual Report to the Director, National Institutes of Health** ,1975      *Vocational Education Bulletin* United States.
