Focality and Extension in Kinship Warren Shapiro, 2018-04-20 When we think of kinship we usually think of ties between people based upon blood or marriage But we also have other ways nowadays called performative of establishing kinship or hinting at kinship many Christians have in addition to parents godparents members of a trade union may refer to each other as brother or sister Similar performative ties are even more common among the so called tribal peoples that anthropologists have studied and especially in recent years they have received considerable attention from scholars in this field However these scholars tend to argue that performative kinship in the Tribal World is semantically on a par with kinship established through procreation and marriage Harold Scheffler long time Professor of Anthropology at Yale University has argued by contrast that procreative ties are everywhere semantically central i e focal that they provide bases from which other kinship ties are extended Most of the essays in this volume illustrate the validity of Scheffler s position though two contest it and one exemplifies the soundness of a similarly universalistic stance in gender behaviour This book will be of interest to everyone concerned with current controversy in kinship and gender studies as well as those who would know what anthropologists have to say about human nature The study of kinship once ruled the discipline of anthropology and Hal Scheffler was one of its magisterial figures This volume reminds us why Scheffler s powerful analyses of kinship systems often conflicted with the views of his more relativist contemporaries He cut through the fog of theory to emphasise the human essentials namely the importance of the social bonds rooted in motherhood and fatherhood Anthropology in its decades long retreat from the serious study of kinship has lost a great deal This volume points the way to a restoration Peter Wood National Association of Scholars
