Pharmacology in Nursing Gayle McKenzie, Bonita Broyles, Mary E. Evans, Rachel Page, Susan Pleunik, Barry S. Reiss, 2016-10-05. Focuses on the use of drugs as medications within the healthcare environment in Australia and New Zealand. We use the term medication rather than drug throughout this book to refer to any drug that is used in the healthcare context, although the terms are generally interchangeable, and it is the generic name of a medication that does not change and is the essential name for the nurse to know. We also introduce some abbreviations that are commonly used by healthcare providers and pharmacists in writing and preparing medication prescriptions. Two new chapters have been included in the second edition. One chapter covers pharmacogenetics and pharmacogenomics, an area of growing interest in personalized medicine, and the other covers legal and ethical issues related to the administration of medications. From preface.

Laryngeal Manifestations of Systemic Diseases Abdul-Latif Hamdan, Robert Thayer Sataloff, Mary Hawkshaw, 2019-02-08

Laryngeal Manifestations of Systemic Diseases synthesizes current knowledge about voice dysfunctions associated with various disorders. The authors review pathophysiology of systemic diseases and their effects on phonation with summaries of current literature. Clinicians will benefit from the unique case studies with photos to supplement various chapters. Difficulty with the voice is often the first manifestation of systemic disease. Because of this familiarity with laryngeal manifestation of systemic disease is important not only for otolaryngologists and phoniatrists but also for family practitioners, internists, medical students, physician assistants, nurse practitioners, nurse clinicians, speech language pathologists, singing voice specialists, acting voice specialists, voice teachers, and others entrusted with the care, education, and health of the human voice. This book is intended for all such professionals and for patients, particularly professional voice users who want to know as much as possible about their instrument and conditions that might affect it adversely.
