Whitaker's Book List ,1988 **Mental Health Nursing Case Book** Nick Wrycraft,2012-09-16 This is a modern multi disciplinary text confronting a complex age and journey into recovery It is a roadmap for every student of mental health who wants to put the most up to date practice fuel into their tank The case study approach offers an authentic insight into life experiences of service users and allows the reader to re think the relationship they have with vulnerable people in the middle of sensitive life challenges Dr Dean David Holyoake University of Wolverhampton UK This engaging book consists of 27 case studies which offer a realistic and insightful view into the experience of mental ill health A range of mental health problems are considered for people at different stages of the lifespan from common problems such as anxiety or depression through to severe and enduring conditions such as schizophrenia Part of a new Case Book series the book is written in an informative and clear style and utilises the latest evidence based interventions and resources The approach adopted Incorporates recovery based principles Emphasizes the importance of collaborative working Values the person s perspective Actively empowers and advocates for the person to make their own decisions and choices Written and edited by academic experts and experienced clinicians the cases all take a positive person centred approach focusing on recovery outcomes The book addresses the biological psychological social and physical aspects in scenarios and includes areas of mental health which are often overlooked such as alcohol and substance misuse amongst older adults Mental health nurse training involves focusing on working with individuals one to one in a range of settings and this case book will reflect and complement the skills and situations students face while training and on placement Contributors Geoffrey Amoateng Jean Louis Ayivor May Baker Alison Coad Hilary Ford Sally Goldspink John Harrison Mark McGrath Michael Nash Cliff Riordan Heather Rugg Noel Sawyer Vanessa Skinner Steve Wood *The Public Manager Case Book* Terrel L. Rhodes,2002 **American Book Publishing Record** ,2000-07 Interdisciplinary Casebook in Geriatric Communication Barbara Bender Dreher,Joseph D. Alter,1989

Perioperative Practice Case Book Hannah Abbott,Stephen Wordsworth,2016-08-16 This case book is the ideal text for Operating Department Practitioners ODPs as well as student ODPs and nurses preparing to work in perioperative care Delivering individualised holistic and evidence based care can be challenging in the perioperative setting requiring the practitioner to apply specialist clinical knowledge to each individual patient This text presents 20 interactive case studies that will support the reader in assimilating a wide range of professional knowledge in order to develop a comprehensive plan of care for patients they encounter The practical cases Demonstrate how care will vary depending on the patient s physiological assessment and their personal social cultural and emotional needs Will consolidate the reader s learning around pathophysiology pharmacology assessment skills and clinical skills Include common clinical procedures as well as those that are more complex and require a deeper analysis of the evidence in order to improve patient care Use Stop and Think boxes to encourage readers to reflect on key points within the case study in order to develop their own knowledge and assist in their CPD This text will support all learners at both pre and post registration level as they develop their knowledge of

perioperative care Its goal is to help the practitioner deliver excellent and confident care in perioperative practice and in other healthcare settings Although clearly targeted at the student Operating Department Practitioner Abbott and Wordsworth have produced a learning resource that any learner in the perioperative environment will find both informative and a useful learning aid The editors have set out the twenty patient case studies in a sequence that allows the student to work through them as their course and competence progresses although students can dip into the case studies in any order that supports their current clinical placement The section introducing perioperative care is essential reading for any perioperative practitioner with an up to date introduction to the latest concepts of teamwork and human factors in patient safety Coupled with the patient centred focus of the case studies this provides any reader with an understanding of the changing approach to patient care in the perioperative environment Bill Kilvington President College of Operating Department Practitioners UK I have read this book several times and found that the chapter contents are excellent This book will be useful for ODPs and theatre nurses it will enhance their knowledge and skills and may also enhance their abilities to work in operating departments and care well for patients The book covers preoperative care intraoperative care and postoperative care which is essential for all practitioners working in operating departments The content of this book is very informative and will be of great use to both students and qualified practitioners I find it very impressive and I envisage it to be very useful to all theatre practitioners Paul Wicker formerly Head of Perioperative Studies Edge Hill University UK and Visiting Professor Nanjing University China

Aging and Mental Health Robert N. Butler, Myrna I. Lewis, Trey Sunderland, 1991

Ethical Patient Care Mathy D. Mezey, 2002-02-12 This book is designed to teach effective and responsible group decision making to clinicians working in teams to treat older patients The editors use case studies to present ethical dilemmas that team members encounter Pref

Children's Nursing Case Book Tony Long, 2016-08-16

Nursing children and young people is increasingly complex requiring nurses to apply their knowledge and skills to a wide scope of illnesses and situations The challenges to nurses to analyse reflect on different perspectives and then adapt practices to the benefit of service users are reflected in this book Each scenario in this text is created based on real life cases and practice The 23 cases connect knowledge with practice and guide you through the anatomy and physiology and the physical and psychological responses to stressors which are then linked to intervention decisions Cases include Providing care for children and young people with life limiting conditions Acutely ill children including those with asthma and an infant with pyrexia and febrile convulsions Long term conditions including diabetes renal disease and the transfer to adult services Those who are critically ill such as a child with typhoid fever and a toddler with a head injury Supporting emotional and mental health in anorexia and autistic spectrum disorder Promoting healthy lifestyles considering obesity and risky behaviour Care for children with trauma including a child with a learning disability Remaining vigilant for indicators of safeguarding concern encouraging self care and promoting mental resilience are all incorporated with examples from a range of care

environments Calculation exercises are interspersed to keep these skills sharp This Case Book is an ideal learning resource tailored to help nurses learn in a focused way about practice and excel whether on placements in academic work or in professional practice Developed from a partnership between a University Research Group and an NHS Trust this practical children s nursing case textbook bridges theory and practice by presenting 23 case scenarios on complex sensitive and difficult to manage clinical situations in an accessible and user friendly manner The inbuilt activities calculation exercises question and answer format and extra resources make this an excellent interactive resource for nurses to engage in critical thinking and reflection about each case Dr Veronica Lambert Senior Lecturer Children s Nursing Dublin City University Ireland This book will be useful for nurses in the UK who work with children and families in a variety of settings Its format based on case studies and what would you do and what do you need to do scenarios will make it a useful tool for teaching clinical care for children and families Professor Linda Shields School of Nursing Midwifery and Indigenous Health Charles Sturt University Bathurst Australia What Tony Long has achieved is to produce a textbook with contributions from esteemed practicing children s nurses which gives enhanced credibility to each of the case studies Tony and his colleagues have created these case studies to help children s and young people s nurses fully understand the complexities of the needs of both children and their families or carers during their healthcare trajectory This new book crucially never forgets the primary mission of the children s nurse which is to uphold their mantra of the child first and always Alan Glasper Emeritus Professor of children s and young people s nursing at the University of Southampton UK *Case Book of a Coordinated Home Care Program* Montefiore Hospital Association of Western Pennsylvania. Home Care Training and Information Center, 1963 Current Catalog , 1989 First multi year cumulation covers six years 1965-70 **Geriatric Nursing Assistants** George H. Weber, 1990-10-17 This up to date bibliography of heretofore scattered references to nursing assistants includes literature pertinent to the construction of models to improve nursing assistant practice and emphasizes the psychosocial skills that are invaluable to the nursing assistant s work Annotated reviews center on the tasks and context of nursing assistant work and ways to improve practice through training organizational development advocacy and bargaining Additional chapters present a tentative psychosocial model of nursing assistant practice offer six intervention models and investigate ways of further developing the nursing assistant occupation Very highly recommended Choice The role of the nursing home has expanded in the late twentieth century due to both the growing percentage of elderly in the U S population and to society s tendency to over institutionalize people In recent years the kinds and quality of care given to the elderly in nursing homes have received intense scrutiny This timely bibliography focuses on nursing assistants the personnel who are with the elderly around the clock doing a variety of tasks ranging from helping them with basic functions to comforting them during periods of distress Nursing assistants provide as much as 90 percent of the direct care received by the elderly in the nursing home setting Emphasizing the psychosocial skills that make the nursing assistant s job so

important to the well being of nursing home residents Geriatric Nursing Assistants collects and annotates the heretofore scattered references to nursing assistants and includes literature pertinent to the construction of models that improve nursing assistant practice The first four chapters present the annotated reviews which are organized in anticipation of the practice enhancement models discussed in Chapter Six These reviews center on the tasks and context of the nursing assistant s work and on ways to improve practice through training organizational development advocacy and bargaining Chapter Five offers a tentative psychosocial concept of nursing assistant practice that requires further development detailing the various resident psychosocial circumstances to which the nursing assistant might respond helpfully and the kinds of interventions and techniques which the nursing assistant might attempt In Chapter Six intervention models on inservice training organizational development advocacy and bargaining are presented in ideal typical forms that recognize the limitations of daily practice also these models emphasize rigorous practice and its evaluation Activities necessary to further develop the nursing assistant occupation including political action are investigated in Chapter Seven which also considers the moral aspects of a progressive agenda for nursing assistants This reference seeks to improve services to nursing home residents and represents a valuable practical contribution to the geriatric field It will be useful to nursing home administrators and directors of nursing homes who must address ways to improve the working conditions of nursing assistants to academicians in their research training and advocacy efforts and to the training directors and supervisors in the field who can directly aid nursing assistants in the acquisition of needed knowledge and skills

Paperbound Books in Print 1995 Reed Reference Publishing, R5ference Reed, 1995-12

Principles and Practice of Geriatric Psychiatry Marc E. Agronin, Gabe J. Maletta, 2012-03-28 Many elderly patients suffer from psychiatric conditions that result from or are made worse by existing medical conditions This new edition integrates clinical expertise needed to evaluate and treat psychiatric medical and neurologic disorders in the older patient Both scientific foundations of and clinical approaches to psychiatric disease are discussed by a range of experts who rely on evidence based clinical guidelines and outcomes data Most chapters include case studies that illuminate the approaches to diagnosis and treatment The book s five sections include basic principles of evaluation and treatment for specific disorders appendices offer further insight into pharmacotherapy and neuroanatomic foundation of psychiatric diseases
