Midwives, and Reproductive Labor in Interwar and Wartime Britain , Sandra Trudgen Dawson, 2024-01-26 Mothers Midwives and Reproductive Labor in Interwar and Wartime Britain is about the experiences of mothers and midwives as they navigated the changing political and social issues surrounding childbirth and motherhood during interwar and wartime Britain The needs and agency of women as mothers and midwives often conflicted with the ideals of the state While government officials understood the importance of safe childbirth to the nation they also chose to allow economic crises and war preparation to take precedence The interwar plans for a national maternal healthcare system met financial constraints and a lack of political will As the outbreak of the Second World War appeared imminent politicians planned for pregnant women and those with small children to evacuate from cities The reception areas were less well planned and pregnant women returned to their homes rather than deliver among strangers Wartime maternity provision didn't take into account the needs and desires of mothers and midwives Reproductive laborers mothers and midwives demonstrated agency throughout the period Pregnant women chose to deliver at home with untrained or trained birth attendants midwives entered and left the profession on their own terms offering or withholding their skills when it suited individual need rather than at the behest of government **Maneuvers** Cynthia Enloe, 2000-02 Enloe outlines the dilemmas feminists around the globe face in trying to craft theories and strategies that support militarized women locally and internationally without unwittingly being militarized themselves

hospitals and then disbanding them is questioned in the light of changing disease patterns international travel and the threat posed by biological warfare

Gender in Scottish History Since 1700 Lynn Abrams,2006-01-25 Scottish history is undergoing a renaissance Everyone agrees that an understanding of our nation s history is integral to our experience of its present and the shaping of the future But the story of Scotland s past is being told with little reference to gendered identities Not only are women largely missing from these grand narratives but men s experience has tended to be sublimated in intellectual political and economic agendas Neither femininities nor masculinities have been given much of a place in Scotland s past or in the process of nation making Gender in Scottish History offers a new perspective on Scotland s past since around 1700 viewing some of the main themes with a gendered perspective It starts from the assumption that gender is integral to our understanding of the ways in which societies in the past were organised and that national histories have a tendency to be gender blind Each chapter engages with one key theme from Scottish historiography asking what happens when women are added to the story and how the story changes when the meanings of gendered understandings and assumptions are probed Addressing politics culture religion science education work the family and identity Gender in Scottish History proposes an alternative reading of the Scottish past which is both inclusive and recognisable

Changing Practice in Health and Social Care Celia Davies,2000-02-11 New Ways of Working in Health and Social Care explores the range and depth of recent challenges facing professionals in health and social care
