What to Expect For some time now I have been toying around with the idea of writing a book about Ceramic Extrusion because to my amazement I have been unable to locate a single existing comprehensive rundown on the subject much in contrast to say plastic extrusion and despite the fact that there are some outstanding contributions to be found about certain individual topics such as those in textbooks by Reed 1 Krause 2 Bender Handle 3 et al By way of analogy to Woody Allen s wonderfully ironic movie entitled *Eve thing You Always Wanted to Know about Sex* I originally intended to call this book *Everything You Always Wanted to Know about Ceramic Extrusion* but ter giving it some extra thought I eventually decided on a somewhat soberer title Nevertheless my companion writers and I have done our best considering our target group and their motives not to revert to the kind of jargon that people use when they think the less understandable it sounds the more scienti c it appears This book addresses all those who are looking for a lot or a little general or selective information about ceramic extrusion and its sundry aspects We realize that most of our readers will not be perusing this book just for fun or out of intellectual curiosity but because they hope to get some use out of it for their own endeavours **The Bulletin of the American Ceramic Society** American Ceramic Society, 1927 **Journal of the American Ceramic Society** American Ceramic Society, 1922 *Publication*, 1995 *Ceramic Data Book*, 1928 **Ceramic Age**, 1950 *The Potter's Dictionary of Materials and Techniques* Frank Hamer, Janet Hamer, 2004-06-23 This book is an authoritative survey of all aspects of making ceramics for craft potters and ceramic artists **Jerusalem Ceramic Chronology** Jodi Magness, 1993-01-01 This outstanding book offers a standardized typology and chronology for the pottery of the Jerusalem area from c 200 to 800 CE with an emphasis on the fourth to seventh centuries It begins with a review of the stratigraphy and ceramic assemblages of the relevant published sites the City of David the north wall of Jerusalem the Damascus Gate Bethany the Armenian Garden and Ramat Rahel Also presented is previously unpublished late Roman and Byzantine pottery from Avigad s excavations in the Jewish Quarter with a discussion of some of the ceramic types most characteristic of the Jerusalem area during the late Roman Byzantine and early periods The last part of the book is a corpus that sets forth a typology for the pottery of Jerusalem from c 200 to 800CE with dates and lists of parallels provided for each type
