Rawlins, 2020-09-21 This book is a detailed examination of social connections to language evaluation with a specific focus on the values associated with both prescriptivism and descriptivism. The chapters written by authors from many different linguistic and national backgrounds use a variety of approaches and methods to discuss values in linguistic prescriptivism. In particular, the chapters break down the traditional binary approaches that characterize prescriptive discourse to create a view of the complex phenomena associated with prescriptivism and the values of those who practice it. Most importantly, this volume continues serious academic conversations about prescriptivism and lays the foundation for continued exploration.

Rinehart Guide Grammar Use Carter, 1988-01-01 *Copy(write)* Martine Courant Rife, Shaun Slattery, 2011-10-09 Brings together stories, theories, and research that can further inform the ways in which writing teachers situate and address intellectual property issues in writing classrooms. The essays in the collection identify and describe a wide range of pedagogical strategies, consider theories, present research, explore approaches, and offer both cautionary tales and local and contextual successes.

WPA, Writing Program Administration, 1990 Guide to Library Research in Public Administration Antony E. Simpson, 1976 The Cumulative Book Index, 1995

A world list of books in the English language. *Codes and Consequences* Carol Myers-Scotton, 1998-08-20 Carol Myers-Scotton has edited a collection of essays that covers the choice of one style of English over another in everything from Bible translations to surprise in poetry to supervisor-worker interactions on the automobile assembly line. An important theme developed to varying degrees in these papers is the notion that speakers and writers as rational actors exploit the unmarked marked opposition regarding audience expectations so as to convey messages of intentionality charged with social or psychological import.

Forthcoming Books Rose Arny, 1989-05 Subject Guide to Books in Print, 1971 **Center Will Hold** Michael Pemberton, 2003-12-01 In *The Center Will Hold*, Pemberton and Kinkead have compiled a major volume of essays on the signal issues of scholarship that have established the writing center field and that the field must successfully address in the coming decade. The new century opens with new institutional demographic and financial challenges, and writing centers in order to hold and extend their contribution to research, teaching, and service must continuously engage those challenges. Appropriately, the editors offer the work of Muriel Harris as a key pivot point in the emergence of writing centers as sites of pedagogy and research. The volume develops themes that Harris first brought to the field, and contributors here offer explicit recognition of the role that Harris has played in the development of writing center theory and practice. But they also use her work as a springboard from which to provide reflective, descriptive, and predictive looks at the field.
