**Fishery Bulletin**, 2011. Sharks of the Open Ocean Merry D. Camhi, Ellen K. Pikitch, Elizabeth A. Babcock, 2009-01-21. Virtually every pelagic shark expert in the world has contributed to this landmark publication which includes the latest data and knowledge on pelagic shark biology, fisheries management and conservation. Pelagic sharks face unprecedented levels of exploitation in all the world's oceans through both direct fisheries and bycatch, and effective management for these species is contingent upon solid science and data which this book brings together for the first time. All those involved in shark biology will need to have a copy of this book.

Molenaar, 2019-04-04. This collection addresses the central question of how the current international framework for the regulation of fisheries may be strengthened in order to meet the challenges posed by changing fisheries and ocean conditions in particular climate change. International fisheries law has developed significantly since the 1990s through the adoption and establishment of international instruments and bodies at the global and regional levels. Global fish stocks nevertheless remain in a troubling state and fisheries management authorities face a wide array of internal and external challenges including operational constraints, providing effective management advice in the face of scientific uncertainty and non-compliance by States with their international obligations. This book examines these challenges and identifies options and pathways to strengthen international fisheries law. While it has a primarily legal focus, it also features significant contributions from specialists drawn from other disciplines notably fisheries science, economics, policy and international relations in order to

provide a fuller context to the legal policy and management issues raised Rigorous and comprehensive in scope this will be essential reading for lawyers and non lawyers interested in international fisheries regulation in the context of profoundly changing ocean conditions      **Multidisciplinary Approaches to Mitigating Fisheries Bycatch** Rebecca Lent,Dale Edward Squires,Peter H. Dutton,Lisa Taylor Ballance,2022-04-29      Performance assessment of bycatch and discards governance by regional fisheries management organizations ,
