He would have been happier if he had known less history But there was very bad news in his new future so he set out to turn Medieval Poland into the most powerful country in the thirteenth century It wouldn't be easy He would be investigated by the Inquisition he should have expected that he knighted round up vassals build a city survive armed combat with the Champion of the Teutonic Knights invent the steam engine and cloth factories establish universal education and organize an army He needed that army most of all because he knew that the Mongol hordes would attack in

only ten years and destroy medieval Poland and that would really mess up Conrad's life Three novels in the Locus best selling series in one volume At the publisher's request this title is sold without DRM Digital Rights Management
