have hours at any one time to concentrate on one thing alone I often make a batch of pastry first thing in the morning go through the rolling resting and baking stages throughout the day when I get a spare 20 minutes here and there then on to the filling and decorating in the evening when all is quiet and the day's stresses have eased Being relaxed and being able to enjoy what you are doing will without doubt lead to a better result What is important is to make these bakes your own use these decorations as inspiration as a starting point but do go on to create your own patterns or finishes It can be quite surprising what can appear in front of you when your creative side takes over Be spontaneous be unique be authentic be proud of what you are making and most importantly bake with love in your heart
