Looking At Russia:

Understanding Russia Marlene Laruelle, Jean Radvanyi, 2018-08-16 This timely book provides a balanced and comprehensive overview of the geographical historical political cultural and geostrategic factors that drive Russia today Russia has long inspired fear in the West but as the authors argue Russia is fearful as well Three decades after the transformations launched by perestroika multiple ghosts haunt both Russian elites and ordinary citizens ranging from concerns about territorial challenges societal transformations and economic decline to worries about the country's vulnerability to external intervention Faced with a West that emerged victorious from the Cold War a shockingly dynamic China and former Soviet republics claiming their right to emancipate themselves from Moscow's stranglehold Russia is constantly questioning its identity its development path and its role on the international scene The country hesitates between two strategies take refuge in a new isolation and revive the old notion of being a besieged fortress or replay the messianic myth of a Third Rome the last bastion of Christian values in the face of a decadent West Explaining Russia's perspective Marlene Laruelle and Jean Radvanyi offers a much needed analysis that will help readers understand how the country deals with its domestic issues and how these influence Russian foreign policy

Russia's Coercive Diplomacy R. Maness, B. Valeriano, 2015-07-13 Russia's place in the world as a powerful regional actor can no longer be denied the question that remains concerns what this means in terms of foreign policy and domestic stability for the actors involved in the situation as Russia comes to grips with its newfound sources of might **Russia and the Western Far Right** Anton Shekhovtsov, 2017-09-08 The growing influence of Russia on the Western far right has been much discussed in the media recently This book is the first detailed inquiry into what has been a neglected but critically important trend the growing links between Russian actors and Western far right activists publicists ideologues and politicians The author uses a range of sources including interviews video footage leaked communications official statements and press coverage in order to discuss both historical and contemporary Russia in terms of its relationship with the Western far right Initial contacts between Russian political actors and Western far right activists were established in the early 1990s but these contacts were low profile As Moscow has become more anti Western these contacts have become more intense and have operated at a higher level The book shows that the Russian establishment was first interested in using the Western far right to legitimise Moscow's politics and actions both domestically and internationally but more recently Moscow has begun to support particular far right political forces to gain leverage on European politics and undermine the liberal democratic consensus in the West Contributing to ongoing scholarly debates about Russia's role in the world its strategies aimed at securing legitimation of Putin's regime both internationally and domestically modern information warfare and propaganda far right politics and activism in the West this book draws on theories and methods from history political science area studies and media studies and will be of interest to students scholars activists and practitioners in these areas The New York

diaspora that populated Russia's territorial fringes and navigated the tsarist empire's metropolitan centers. By engaging the ongoing debates about imperial structures that were simultaneously symbiotic and hierarchically ordered, Stephen Badalyan Riegg helps us to understand how for Armenians and some other subjects, imperial rule represented not hypothetical, clear-cut alternatives but simultaneous, messy realities. He examines why and how Russian architects of empire imagined Armenians as being politically desirable. These circumstances included the familiarity of their faith, perceived degree of social, political, or cultural integration, and their actual or potential contributions to the state's varied priorities. Based on extensive research in the archives of St. Petersburg, Moscow, and Yerevan, *Russia's Entangled Embrace* reveals that the Russian government relied on Armenians to build its empire in the Caucasus and beyond. Analyzing the complexities of this imperial relationship beyond the reductive question of whether Russia was a friend or foe to Armenians allows us to study the methods of tsarist imperialism in the context of diasporic distribution, interimperial conflict, and alliance, nationalism, and religious and economic identity.

Assessing Russia's Actions in Ukraine and Syria, 2014-2022 John A. Pennell, 2024-09-11

What do Russia's actions in Ukraine and Syria, particularly between 2014 and 2022, tell us about the character of modern conflict? Do these actions indicate change or continuity? What linkages are there between Russia's approaches to warfare today with those before, during, and after the Soviet era? *Assessing Russia's Actions in Ukraine and Syria, 2014-2022: Implications for the Changing Character of War* investigates how Russia's actions in Syria and Ukraine reveal more continuity than change and more evolution than revolution in warfare. These actions mostly reflect what the Kremlin perceives as changes in strategic and technological contexts, which impacts who fights wars and how wars are fought. Given historic cultural and other ties between Russia and Ukraine, Russia's activities in Ukraine prior to 2022 are not easily replicable outside of the post-Soviet space. This book argues that new generation warfare, political warfare, or full spectrum conflict better describes Russia's activities than hybrid warfare. John A. Pennell addresses critical gaps in research by considering the totality of Russia's actions and gleanings from those directly involved with aspects of Russia's interventions.

Russia's Denial of Ukraine Nataliya Shpylova-Saeed, 2024-05-16

In 2022, Russia heightened its initial 2014 assault and launched its imperialist, full-scale war against Ukraine. The Kremlin continued to perpetrate its denial of Ukrainians as a nation distinct from the Russians. *Russia's Denial of Ukraine: Letters and Contested Memory* explores the gradual and long-lasting integration of contested memory in the cultural memory of Ukraine. It emphasizes how narratives which formed the contested memory in the nineteenth century appeared to come to the fore with the onset of the Russo-Ukrainian War. At the same time, it offers the theoretical premise for exploring contested memory, social forgetting, and remembering. The ambivalent nature of contested memory manifests in weakening national aspirations and strengthening resilience and resistance against violence. Contested memory nuances the discussion of undermining a metropolitan center and dismantling oppression. Letters reveal public

discourses shaped by cultural and political developments centering on the Ukrainians endeavors to remember themselves as a nation distinct from the Russians Epistolary expressions by Mykola Hohol Taras Shevchenko Lesia Ukrainka Ivan Franko and Volodymyr Vynnychenko illustrate the circulation of contested memory sponsored and supported in many ways by Russia Writers comment on their Ukrainianness and situate themselves in Ukraine s entangled past in which empires clash and fall apart *Russia's Last Capitalists* Alan M. Ball,1987 In 1921 Lenin surprised foreign observers and many in his own Party by calling for the legalization of private trade and manufacturing Within a matter of months this New Economic Policy NEP spawned many thousands of private entrepreneurs dubbed Nepmen After delineating this political background Alan Ball turns his attention to the Nepmen themselves examining where they came from how they fared in competition with the socialist sector of the economy their importance in the Soviet economy and the consequences of their liquidation at the end of the 1920s Alan Ball s history of this experiment with capitalism is strikingly relevant to current efforts toward economic reform in the USSR **Bulletin of the Russian Information Bureau in the U.S.** Russian Information Bureau,1920
