systems *Global Horizons* Hendrik Spruyt,2009-01-01 Spruyt has written an outstanding text that leaves students informed and motivated while at the same time providing splendidly balanced coverage of multiple issue areas and approaches Colin Elman Maxwell School Syracuse University **The Ottoman Empire and Early Modern Europe** Daniel Goffman,2002-04-25 This text provides an introduction to the history and institutions of the Ottoman Empire and presents a claim for its inclusion in Europe as opposed to being apart from it due to its many cultural differences *Medieval Horizons* Ian Mortimer,2023-02-23 The essential introduction to the Middle Ages by the author of *The Time Traveller's Guide* series the most remarkable medieval historian of our time *The Times UK* We tend to think of the Middle Ages as a dark backward and unchanging time characterized by violence ignorance and superstition By contrast we believe progress arose from science and technological innovation and that inventions of recent centuries created the modern world But as Ian Mortimer shows in this fascinating book we couldn't be more wrong In this revelatory history Mortimer shows how people's horizons their knowledge experience and understanding of the world were utterly transformed between 1000 and 1600 marking the transition from a warrior led society to that of Shakespeare *Medieval Horizons* sheds light on the enormous cultural changes that took place from literacy to living standards inequality and even the developing sense of self Mortimer demonstrates why this was a revolutionary age of fundamental importance in the development of the Western world **Eastward of Good Hope** Dane A. Morrison,2021-11-30 How did news from the East carried in ship logs and mariners reports journals and correspondence shape early Americans understanding of the world as a map of dangerous and incoherent sites Winner of the John Lyman Book Award by the North American Society for Oceanic History Freed from restrictions of British mercantilism in the years following the War of Independence Yankee merchants embarked on numerous voyages of commerce and discovery into distant seas Through the news from the East carried in mariners reports ship logs journals and correspondence Americans at home imagined the world as a map of dangerous and deranged places This was a world that was profoundly disordered hobbled by tyranny and oppression or steeped in chaos and anarchy often deadly always uncertain unpredictable and unstable yet amenable to American influence Focusing on four representative arenas the Ottoman Empire China India and the Great South Sea collectively the East Indies Oceania and the American continent's Northwest coast *Eastward of Good Hope* recasts the relationship between America and the world by examining the early years of the republic when its national character was particularly pliable and its foundational posture in the world was forming Drawing on recent scholarship in global ethnohistory Dane A Morrison recounts how reports of cannibal encounters shipboard massacres shipwrecks tropical fever and other tragedies in distant seas led Americans to imagine each region as a distinct set of threats to their republic He also demonstrates how the concept of justification through self doubt allowed for aggressive expansionism and for the foundations of imperialism to develop Morrison reconsiders American ideas about the world through three questions How did British Americans imagine the world before independence allowed them to travel Eastward
