Los Nuevos Movimientos Sociales De La Ideología A La Identidad:

A Social History of Spanish Labour José A. Piqueras, Vicent Sanz Rozalén, 2007 Focusing on organization resistance and political culture this collection represents some of the best examples of recent Spanish historiography in the field of modern Spanish labor movements Topics range from socialism to anarchism from the formation of the liberal state in the 19th century to the Civil War and from women in the work place to the fate of the unions under Franco BOOK JACKET Política del disenso Xavier Godàs i Pérez, 2007 Política del disenso es un libro que contribuye a clarificar cómo se desarrollan los movimientos sociales contemporáneos Fija su atención en aquel tipo de movilizaciones que tienen como propósito general la radicalización de la democracia en contextos democráticos y para ello se apoya en las teorías sociológicas que han estudiado diferentes fenómenos de protesta política desde el fin de la segunda guerra mundial hasta hoy día *Political Power and Social Theory* Diane E. Davis, Julian Go, 2009-12-21 It is time to consider changes in the field of comparative historical sociology as the discipline seeks to accommodate old and new trends as well as the transforming spatial scales in which political power and social theory are increasingly embedded This title showcases articles that pursue similar themes

Participando en la Red Elena Grau, 2001 **The Social Roots Of Basque Nationalism** Alfonso Pérez-Agote, 2006-03-08 Translated by Cameron Watson and William A Douglass Foreword by William A Douglass The Basque people have preserved their ethnic identity and sense of themselves as a separate community despite centuries of repression diaspora and economic and social upheaval one of the most remarkable achievements in the history of the phenomenon we call nationalism In *The Social Roots of Basque Nationalism* sociologist Alfonso Pérez-Agote addresses the social mechanisms that Basques employed to sustain their ethnic identity under the Franco Regime and demonstrates how persecution actually encouraged the extension of Basque nationalist consciousness He also reveals how state political pressure radicalized one element of the Basque nationalist movement resulting in the formation of ETA an armed terrorist wing that itself became a mechanism for extending nationalist consciousness Finally he examines the subsequent changes in Basque nationalism following Franco's death and the extension of democracy in Spain which resulted in the institutionalization of the movement into an autonomous political power This work is based in part on interviews and polls with informants in the Basque Country and abroad eliciting such data as the role that family education social contacts and religious environment play in the evolution of political attitudes the place of violence in the Basque world view and contemporary political culture regional variations in Basque nationalism and the factors that contributed to the resilience of Basque nationalism in adapting to new historical conditions The result is a sophisticated discussion of the various ways in which Basque social reality is constituted and how this reality helps to create political culture Because Pérez-Agote situates his discussion within the broader frameworks of ethnic identity group dynamics and the nature of nationalism the book makes a significant contribution not only to our understanding of the Basques but to the broader study of the evolution of nationalism and the nation state political violence and the complicated

transition of any society from dictatorship to democracy **Handbook of Social Movements across Latin America** Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region. It examines the developments of the past twenty years such as a renewed upswing in popular mobilization, the ending of violent conflicts and military governments, new struggles and a relatively more democratic climate. It shows that from southern Chiapas to Argentina, social movements in the 1990s and especially in the 2000s have reached new heights of popular participation. There is a lack of research on the politics of this region in the contemporary era of globalization; this volume partially fills the void and offers a rich resource to students, scholars, and the general public in terms of understanding the politics of mass mobilization in the early twenty-first century. The contributors each address social movement activity in their own nation, and together they present a multidisciplinary perspective on the topic. Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggles, for instance, the main protagonists in the campaigns, the grievances of the population, and the outcomes of the struggles. This Handbook is divided into seven substantive themes providing overall coherence to a broad range of social conflicts across countries, issues, and social groups. These themes include 1. theory of Latin American social movements 2. neoliberalism 3. indigenous struggles 4. women's movements 5. movements and the State 6. environmental movements and 7. transnational mobilizations **Sociology of Hope** Adrian Scribano, 2025-07-01 This book explores the sociology of hope. It presents an overview of the state of the art of hope in sociology and proposes a new basic theory of hope linked to the classical theoretical traditions of sociology, to the perspective of its founding women, and to the reconstruction of the contributions of the theories of revolution, utopia, social change, and collective action. In an attempt to understand the sociology of hope as a critical theory and a science of life, this book proposes the central elements in theoretical and epistemic terms for establishing connections between ethics, aesthetics, politics of knowledge, and their current strong modifications in the study of society. As such, the book will appeal to scholars and students interested in emotions, particularly from the disciplines of sociology, anthropology, political science, and psychology *Movimientos sociales. Subjetividad y acción de los trabajadores desocupados en Argentina* Martín Retamozo, 2009 Un excelente estudio de la experiencia de los desocupados que elaboraron una demanda por trabajo y construyeron formas de organización y movilización social sin precedentes en América Latina. A partir de entrevistas con los participantes de base, la visita a las organizaciones y el registro de acciones de protesta, se analiza la conformación de una subjetividad colectiva subalterna capaz de significar el desempleo como un daño, una injusticia y producir acciones que cuestionan un orden de dominación **Student-Led Movements and Political Transformation in Contemporary Chile** Camila Ponce Lara, 2025-05-22 This book examines how Chilean student movement leaders achieved unprecedented political power in the post-dictatorship era, culminating in Gabriel Boric's presidency and prominent roles for other former activists. Through detailed analysis, it traces the evolution of student

movements from post dictatorship resistance to institutional governance revealing strategies that enabled this remarkable shift from protest to executive leadership The chapters progress methodologically from theoretical frameworks on youth activism and social movement theory to case studies of key mobilizations including the 2001 Mochilazo 2006 Ping ino Movement and transformative 2011 protests The work explores how different political trajectories conservative breakthrough and emerging shape young activists paths to power By analyzing this unprecedented political transformation the book offers vital insights for understanding contemporary social movements across Latin America and beyond It provides innovative conceptual tools for scholars activists and policymakers interested in political change youth leadership and the dynamic relationship between street protest and institutional power

Digital Labour, Society and the Politics of Sensibilities

Adrian Scribano, Pedro Lisdero, 2019-03-18 This volume provides a multidisciplinary perspective on a set of transformations in social practices that modify the meaning of everyday interactions and especially those that affect the world of labour The book is composed of two types of texts some dedicated to exploring the modifications of labour in the context of the digital age and others that point out the consequences of this era and those transformations in the current social structuration processes The authors examine interwoven possibilities and limitations that act in renewed ways to release repress the creative energy of human beings just a few of the potential paths for investigating the connections between work and society that are nowadays involved in the battle of sensibilities
