Los Angeles 2005:

Home Care Fault Lines Cynthia J. Cranford, 2020-06-15 In this revealing look at home care Cynthia J Cranford illustrates how elderly and disabled people and the immigrant women workers who assist them in daily activities develop meaningful relationships even when their different ages abilities races nationalities and socioeconomic backgrounds generate tension As Cranford shows workers can experience devaluation within racialized and gendered class hierarchies which shapes their pursuit of security Cranford analyzes the tensions alliances and compromises between security for workers and flexibility for elderly and disabled people and she argues that workers and recipients negotiate flexibility and security within intersecting inequalities in varying ways depending on multiple interacting dynamics What comes through from Cranford's analysis is the need for deeply democratic alliances across multiple axes of inequality To support both flexible care and secure work she argues for an intimate community unionism that advocates for universal state funding designs culturally sensitive labor market intermediaries run by workers and recipients to help people find jobs or workers and addresses everyday tensions in home workplaces

The Coming Age of Direct Democracy Mark Baldassare, Cheryl Katz, 2008 This book examines the new hybrid democracy that has been taking shape in California since the historic recall of Gov Gray Davis and election of former actor Arnold Schwarzenegger in 2003 During the recall and its aftermath California has reached unprecedented levels of use of direct democracy in which public policy decisions are made by voters at the ballot box rather than by elected representatives in the legislature Driven by Californians long standing populism and distrust of government a new form of governance is emerging one that seeks to avoid the pitfalls of party politics and influence by special interest groups that plague representative democracy by increasing the role of voters at the ballot box This book analyzes the hybrid democracy that has developed under Gov Schwarzenegger and how his leadership has encouraged its growth Using the Public Policy Institute of California Statewide Surveys which include interviews with more than 150 000 Californians the authors detail the transformation in the state's political climate and the public attitudes behind this change The authors conclude that this transformation will likely take place in other states perhaps even nationwide and offer recommendations for ways to improve policymaking in a hybrid democracy

Williams, 2008 After reviewing the available evidence from this extensive case study the author concludes that these conducted energy weapons are excluded as the cause of death in 182 of the 212 cases In only two cases did the evidence tend to confirm the weapon was either a cause of death or a significant contributing factor While arguing that the TASER electronic control devices are safe less lethal weapons the author also cautions that they are not completely effective

Working for Justice Milkman Ruth, Joshua Bloom, Victor Narro, 2013-09-30 Working for Justice which includes eleven case studies of recent low wage worker organizing campaigns in Los Angeles makes the case for a distinctive L A Model of union and worker center organizing Networks linking advocates in worker centers and labor unions facilitate mutual learning and synergy and have generated a shared repertoire of economic justice strategies The organized labor movement in Los Angeles has weathered the effects of deindustrialization and deregulation better than unions in other parts of the United States and this has helped to anchor the city s wider low wage worker movement Los Angeles is also home to the nation s highest concentration of undocumented immigrants making it especially fertile territory for low wage worker

organizing The case studies in Working for Justice are all based on original field research on organizing campaigns among L A day laborers garment workers car wash workers security officers janitors taxi drivers hotel workers as well as the efforts of ethnically focused worker centers and immigrant rights organizations The authors interviewed key organizers gained access to primary documents and conducted participant observation Working for Justice is a valuable resource for sociologists and other scholars in the interdisciplinary field of labor studies as well as for advocates and policymakers

Propaganda and Information Warfare in the Twenty-First Century Scot Macdonald, 2006-12-05 This is the first book to analyze how the technology to alter images and rapidly distribute them can be used for propaganda and to support deception operations In the past propagandists and those seeking to conduct deception operations used crude methods to alter images of real people events and objects which could usually be detected relatively easily Today however computers allow propagandists to create any imaginable image still or moving with appropriate accompanying audio Furthermore it is becoming extremely difficult to detect that an image has been manipulated and the Internet television and global media make it possible to disseminate altered images around the world almost instantaneously Given that the United States is the sole superpower few if any adversaries will attempt to fight the US military conventionally on the battlefield Therefore adversaries will use propaganda and deception especially altered images in an attempt to level the battlefield or to win a war against the United States without even having to fight militarily Propaganda and Information Warfare in the 21st Century will be of great interest to students of information war propaganda public diplomacy and security studies in general
