Jamison Jo Medby, Russell W. Glenn, 2002-10-16 Intelligence preparation of the battlefield IPB the Army's traditional methodology for finding and analyzing relevant information for its operations is not effective for tackling the operational and intelligence challenges of urban operations The authors suggest new ways to categorize the complex terrain infrastructure and populations of urban environments and incorporate this information into Army planning and decisionmaking processes

Street Smart Samuel I Schwartz, 2015-08-18 On a Saturday morning in December 1973 a section of New York's West Side Highway collapsed under the weight of a truck full of asphalt The road was closed seemingly for good and the 80 000 cars that traveled it each day had to find a new way to their destinations It ought to have produced traffic chaos but it didn't The cars simply vanished It was a moment of revelation the highway had induced the demand for car travel It was a classic case of build it and they will come but for the first time the opposite had been shown to be true knock it down and they will go away Samuel I Schwartz was inspired by the lesson He started to reimagine cities most of all his beloved New York freed from their obligation to cars Eventually he found he was not alone Since the turn of the twenty first century a surreptitious revolution has taken place every year Americans are driving fewer miles And the generation named for this new century the Millennials are driving least of all Not because they can't afford to they don't want to They have better ideas for how to use their streets An urban transformation is underway and smart streets are at the heart of it They will boost property prices and personal fitness roll back years of congestion and smog and offer a transformative experience of American urban life From San Francisco to Salt Lake Charleston to Houston the American city is becoming a better and better place to be Schwartz's Street Smart is a dazzling and affectionate history of the struggle for control of American cities and an inspiring off road map to a more vibrant active and vigorous urban future **DK Top 10 Los Angeles** DK Travel, 2024-03-26 Made iconic by its Hollywood connections Los Angeles is jam packed with must see sights think world renowned museums top notch restaurants fun filled theme parks and scenic surfing spots Make the most of your trip to the City of Angels with DK

appeared in more movies than Michael Caine and the resulting overfamiliarity to moviegoers poses a problem for critics and filmmakers alike. Audiences often mistake the New York image of skyscrapers and bright lights for the real thing when in fact the City is a network of clearly defined villages each with a unique personality. Standard film depictions of New Yorkers as a rush hour mass of undifferentiated humanity obscure the connections formed between people and places in the City's diverse neighborhoods. *Street Smart* examines the cultural influences of New York's neighborhoods on the work of four quintessentially New York filmmakers: Sidney Lumet, Woody Allen, Martin Scorsese, and Spike Lee. The City's heterogeneous economic and ethnic districts, where people live, work, shop, worship, and go to school, often bear little relation to the image of New York City created by the movies. To these directors, their home city is as tangible as the smell of fried onions in the stairwell of an apartment building, and it is this New York, not the bustling, glittery illusion portrayed in earlier films, that shapes their sensibilities and receives expression in their films. Richard A. Blake shows how the Jewish enclaves on Manhattan's Lower East Side profoundly influence Sidney Lumet's most noted characters as they struggle to form and maintain their identities under challenging circumstances. Both Woody Allen's light comedies and his more serious cinematic fare reflect the director's origins in the Flatbush neighborhood in Brooklyn and the displacement he felt after relocating to Manhattan. Martin Scorsese's upbringing on Elizabeth Street in Manhattan's Little Italy resonates in his gritty portraits of urban modernity. Blake also looks at the films of Spike Lee, whose adolescence in Fort Greene, a socioeconomically diverse Brooklyn neighborhood, exposed him to widely ranging views that add depth to his complicated treatises on power, culture, and race. Lumet, Allen, Scorsese, and Lee's individual identities were shaped by their neighborhoods, and in turn, their life experiences have shaped their artistic vision. In *Street Smart*, Richard A. Blake examines the critical influence of place on the films of four of America's most accomplished contemporary filmmakers.

Street Smart Dina LaPolt, 2025-10-07
