It is not clear whether the use of the language of "rights of nature" is a reflection of the recognition that persons in other cultures do not see themselves as individuals, but rather as members of a community, and that, as a result, their rights are defined in relation to the community. The language of "rights of nature" is a reflection of the recognition that persons in other cultures do not see themselves as individuals, but rather as members of a community, and that, as a result, their rights are defined in relation to the community.

Journal of Internal Medicine 255: 103–110

**Abstract**—The purpose of this study was to determine the effect of a 10-week, 1000 kcal energy deficit diet on the body composition of obese women. The study was a randomized, controlled trial. The subjects were 20 obese women who were randomly assigned to either a diet or a control group. The diet group was instructed to consume 1000 kcal less than their maintenance level, while the control group was instructed to consume their maintenance level. The study was conducted over a 10-week period. The results showed that the diet group lost significantly more weight and body fat than the control group. The diet group also experienced a significant decrease in waist circumference and a significant increase in lean body mass. The control group experienced no significant changes in weight, body fat, waist circumference, or lean body mass. The results of this study suggest that a 10-week, 1000 kcal energy deficit diet is effective for weight loss and body composition improvement in obese women.
