Maternity and Its Rituals in Bang Chan Jane Richardson Hanks, 1968

Childbirth and Tradition in Northeast

Thailand Anders Poulsen, 2007 This beautifully illustrated volume offers a rare study of Isan Thai customs and beliefs associated with pregnancy and birth and how they have changed over almost half a century Using a psychological and socio therapeutic framework Anders Poulsen discusses the function of various birth rites while giving an unmatched description of all traditions specifically connected to pregnancy and birth He includes an interesting description of the tradition of confinement by fire yuu fai and documents that it is still widely practiced contrary to what has been reported He also puts forward a theory of why some traditions maintain their importance while others fade away The findings of this study are supported by the transcription in Isan and translated in to English of the ritual texts that are used in these rites

Hanks, 2018-03-15 Bang Chan traces the changing cultural characteristics of a small Siamese village during the century and a quarter from its founding as a wilderness settlement outside Bangkok to its absorption into the urban spread of the Thai capital Rich in ethnographic detail the book sums up the major findings of a pioneering interdisciplinary research project that began in 1948 Changes in Bang Chan's social organization technology economy governance education and religion are portrayed in the context of local and national developments Calling in the Soul Patricia V. Symonds, 2014-09-01

Calling in the Soul Hu Plig is the chant the Hmong use to guide the soul of a newborn baby into its body on the third day after birth Based on extensive original research conducted in the late 1980s in a village in northern Thailand this ethnographic study examines Hmong cosmological beliefs about the cycle of life as expressed in practices surrounding birth marriage and death and considers the gender relationships evident in these practices The Hmong or Miao as they are called in China and Meo in Thailand have lived on the fringes of powerful Southeast Asian states for centuries Their social framework is distinctly patrilineal granting little direct power to women Yet within the limits of that structure Hmong women wield considerable influence in the spiritually critical realms of birth and death Calling in the Soul will be of interest to sociocultural anthropologists medical anthropologists Southeast Asianists and gender specialists Replaces ISBN 9780295800424 The Manner Born Lauren Dundes, 2004-09-01 This essential collection on maternal and child health focuses on the rites of giving birth from a cross cultural perspective The distinguished list of

Selby,2018-04-04 When the Thai state violently suppressed a massive prodemocracy protest in Black May 1992 it initiated an unprecedented period in Thailand The military shamed and chagrined withdrew from political life and the democracy movement had more latitude than ever before in Thailand s history gaining an institutional presence previously unseen This extraordinary moment created a unique opportunity for the human rights movement to emerge for the first time on a national scale in Thailand Don F Selby examines this era of Thai political history to determine how and why the time was ripe for such developments By placing greater emphasis on human rights as an anthropological concern he focuses on the understandings

that social actors draw from human rights struggles He concludes that what gave emergent human rights in Thailand their shape force and trajectories are the ways that advocates engaged contested or reworked debates around Buddhism in its relationship to rule and social structure political struggle in relation to a narrative of Thai democracy that disavowed egalitarian movements and traditional standards of social stratification and face saving practices In this way human rights ideals in Thailand emerge less from global local translation and more as a matter of negotiation within everyday forms of sociality morality and politics

The Foetal Condition Luc Boltanski,2013-10-29 Abortion is a contentious issue in social life but it has rarely been subjected to careful scrutiny in the social sciences While the legalization of abortion has brought it into the public domain it still remains a sensitive topic in many cultures often hidden from view and rarely spoken about consigned to a shadowy existence Drawing on reports gathered from hospital settings and in depth interviews with women who have had abortions Luc Boltanski sets out to explain the ambiguous status of this social practice Abortion he argues has to remain in the shadows for it reveals a contradiction at the heart of the social contract the principle of the uniqueness of beings conflicts with the postulate of their replaceable nature a postulate without which no society would achieve demographic renewal This leads Boltanski to explore the way human beings are engendered and to analyze the symbolic constraints that preside over their entry into society What makes a human being is not the foetus as such ensconced within the body but rather the process by which it is taken up symbolically in speech that is its symbolic adoption But this symbolic adoption presupposes the possibility of discriminating among embryos that are indistinguishable For society and sometimes for individuals the arbitrary character of this discrimination is hard to tolerate The contradiction is made bearable Boltanski shows by a grammatical categorization the project foetus adopted by its parents who use speech to welcome the new being and give it a name is juxtaposed to the tumoral foetus an accidental embryo that will not be the object of a life forming project Bringing together grammar narrations of life experience and an historical perspective this highly original book sheds fresh light on a social phenomenon that is widely practised but poorly understood

Abortion, Sin and the State in Thailand Andrea Whittaker,2004-07-29 This book discusses abortion in a non Western non Christian

Modern Babylon? Heather Montgomery,2001 Child prostitution became one of the key concerns of the international community in the 1990s World congresses were held international and national laws were changed and concern over commercially sexually exploited children rose dramatically Rarely however were the children who worked as prostitutes consulted or questioned in this process and the voices of these children brought into focus This book is the first to address the children directly to examine their daily lives their motivations and their perceptions of what they do Based on 15 months of fieldwork in a Thai tourist community that survived through child prostitution this book draws on anthropological theories on childhood and kinship to contextualize the experiences of this group of Thai child prostitutes and to contrast these with the stereotypes held of them by those outside their community
