Moon Node Astrology:

The Complete Node Book Kevin Burk, 2003 This book is the first comprehensive guide to the Moon's nodes probably the most misunderstood points in astrology. The nodes are not planets but the points on your birth chart where the orbit of the Moon around the Earth crosses the ecliptic. The nodes are the key to understanding your spiritual purpose for this lifetime. The South Node reveals the lessons, talents, and abilities you mastered in past lives while the North Node shows you how to best use your past life skills for spiritual growth, happiness, and success in this life. The Complete Node Book presents a new and empowering perspective on the nodes. It defines and analyzes the specific lessons and challenges presented by each of the 144 possible placements of the nodes. Both sign and house placement of the nodes are considered for extraordinarily insightful and accurate interpretations. For beginning astrologers, this guidebook provides easy-to-find personal interpretations and a free birth chart offer. For advanced astrologers, it will serve as the definitive reference manual on the Moon's nodes.

The Moon's Nodes Agneta Borstein, 2012-12-28 Practicing Western astrologer Agneta Borstein uses an East-West astrological approach to the lunar nodes, their role in synastry, and their importance in the process of the evolving soul. In addition, her familiarity with the Vedic system and its mythology brings a unique perspective to her interpretation of the nodes. This is a revised and expanded edition of *The Moon's Nodes: A Churning Process of the Soul*, first published in 2004, which expands on the nodes in synastry and their roles in our relationships. It presents the Hindu myths related to the nodes with an emphasis on the goddesses as consorts to the male deities and how their stories connect to the Lunar nodes. Borstein presents the fundamental facts about the Moon's Nodes and includes a discussion of the True and Mean Node and information on the nodal cycle in transit, natal signs, and houses of the nodes and their meaning, especially in how to move from the wounded soul represented by the South Node to higher consciousness represented by the North Node. Includes a fascinating synastry study of Angelina, our modern-day goddess, and her consort Brad Pitt, with an interpretation of the ties that knot them together.

Karmic Astrology Martin Schulman, 1975 After introductory chapters on reincarnation and karma and the astrology of reincarnation, *The Moon's Nodes and Reincarnation* gives a complete delineation of the nodes by sign and house position, a chapter on aspects to the nodes, sample delineations, and an appendix giving nodal positions from 1850 to 2000 A.D.

Astrology's Magical Nodes of the Moon Carmen Turner-Schott, 2024-07-26 The Nodes of the Moon serve as your passport to understanding your past lives. This dynamic polarity reveals the best ways to integrate past life energies into harmony and creative success. Embracing the energy of your north node, for instance, will help you master your soul mission in this lifetime. In *Astrology's Magical Nodes of the Moon*, you will be shown how to take the shadow away from your past life influences and learn ways to channel this powerful energy into alignment with your current life goals. The authors of this book will discuss the nodes that you were born with and guide you through a customized approach to find the love and success you want to attain. This book will inspire you instantly to put the information to work to fulfill your current
