Moral Principles Political Obligations

John Dunn

Moral Principles Political Obligations:

Moral Principles and Political Obligations A. John Simmons, 2020-05-05 Outlining the major competing theories in the history of political and moral philosophy from Locke and Hume through Hart Rawls and Nozick John Simmons attempts to understand and solve the ancient problem of political obligation Under what conditions and for what reasons if any he asks are we morally bound to obey the law and support the political institutions of our countries **The Principle of Fairness and Political Obligation** George Klosko, 2004 In *The Principle of Fairness and Political Obligation* George Klosko presents the first book length treatment of political obligation grounded in the premises of liberal political theory In this now classic work he clearly and systematically formulates what others thought impossible a principle of fairness that specifies a set of conditions which grounds existing political obligations and bridges the gap between the abstract accounts of political principles and the actual beliefs of political actors Brought up to date with a new introduction this new edition will be of great interest to all interested in political thought **Rethinking Political Obligation** D. Mokrosinska, Dorota Mokrosińska, 2012-07-31 What are the grounds for and limits to obedience to the state This book offers a fresh analysis of the debate concerning the moral obligation to obey the state develops a novel account of political obligation and provides the first detailed argument of how a theory of political obligation can apply to subjects of an unjust state **Political Obligations** George Klosko, 2005-03-10 Providing a full defence of the theory of political obligation George Klosko presents arguments based on a number of key principles as well as commenting on popular attitudes and how the state views them

Moral Principles and Political Obligations Alan John Simmons, 1979 *The Principle of Fairness and Political Obligation* George Klosko, 2004-01-26 In *The Principle of Fairness and Political Obligation* George Klosko presents the first book length treatment of political obligation grounded in the premises of liberal political theory In this now classic work he clearly and systematically formulates what others thought impossible a principle of fairness that specifies a set of conditions which grounds existing political obligations and bridges the gap between the abstract accounts of political principles and the actual beliefs of political actors Brought up to date with a new introduction this new edition will be of great interest to all interested in political thought *A Theory of Political Obligation* Margaret Gilbert, 2006-05-11 Margaret Gilbert offers an incisive new approach to a classic problem of political philosophy when and why should I do what the laws of my country tell me to do Beginning with carefully argued accounts of social groups in general and political societies in particular the author argues that in central standard senses of the relevant terms membership in a political society in and of itself obligates one to support that society's political institutions The obligations in question are not moral requirements derived from general moral principles as is often supposed but a matter of one's participation in a special kind of commitment joint commitment An agreement is sufficient but not necessary to generate such a commitment Gilbert uses the phrase plural subject to refer to all of those who are jointly committed in some way She therefore labels the theory offered in this book the plural subject theory

of political obligation The author concentrates on the exposition of this theory carefully explaining how and in what sense joint commitments obligate She also explores a classic theory of political obligation actual contract theory according to which one is obligated to conform to the laws of one's country because one agreed to do so She offers a new interpretation of this theory in light of a theory of plural subject theory of agreements She argues that actual contract theory has more merit than has been thought though the more general plural subject theory is to be preferred She compares and contrasts plural subject theory with identification theory relationship theory and the theory of fair play She brings it to bear on some classic situations of crisis and in the concluding chapter suggests a number of avenues for related empirical and moral inquiry Clearly and compellingly written A Theory of Political Obligation will be essential reading for political philosophers and theorists

Philosophical Anarchism and Political Obligation Magda Egoumenides, 2014-08-28 La obligaci n pol tica hace referencia a la obligaci n moral de los ciudadanos a obedecer la ley de sus estados y a la existencia naturaleza y justificaci n de una especial relaci n entre el gobierno y sus constituyentes Este libro desaf a esta relaci n busca definir y defender la posici n de la filosof a cr tica anarquista contra las alternativas referidas a la justificaci n de las instituciones pol ticas Demuestra el valor de la conquista del enfoque anarquista al problema de la autoridad pol tica observando las teor as del deber natural del estado de justificaci n de la legitimidad de las insituciones pol ticas etc Razona que la perspectiva anarquista es una hecho indispensable para los te ricos de la obligaci n pol tica y puede mejorar nuestros puntos de vista sobre la autoridad pol tica y las relaciones sociales Este libro se construye sobre los trabajos de fil sofos anarquistas como John Simmons y Leslie Green y analiza a los te ricos claves como Rousseau Rawls y Horton Esta fuente har una importante contribuci n a anarquismo pol tico y a los estudios anarquistas en general

On Political Obligation Paul Harris, 2019-11-19 First published in 1990 The individual's obligation to obey the law the state and the government is a fundamental part of contemporary political theory The contributors to this volume drawn from a variety of disciplines including philosophy political science and law take a fresh look at the dilemmas of political obligation They discuss the extent to which we should allow the need for conformity to override individual liberties and ask whether individualism is indeed feasible without a highly developed sense of the public interest or the common good The contrast between individualism and communitarianism is examined throughout the book The contributors also look at the various means through which the state can coerce or persuade the individual to be obedient The emphasis throughout this collection is on the substantive problems themselves rather than on the way these issues have been addressed in the history of political thought The book offers a number of different perspectives on political obligation and will be valuable to students of moral political social and legal philosophy

Political Obligation in a Liberal State Steven M. DeLue, 1989-07-21 The tension between the individualist view and the communalist view dominates current debate about liberal politics DeLue establishes a basis for political discourse in a liberal society an enlarged discourse that allows people of both views to be critically reflective citizens with the necessary

strong sense of obligation to the state DeLue describes this enlarged culture and prescribes what the state must do to nurture it The Oxford Handbook of Political Obligation ,2025-09-28 The Oxford Handbook of Political Obligation offers an authoritative up to date overview of research in this field In recent decades scholars have developed strong criticisms of the traditional reasons given to explain political obligations At present skepticism about the possibility of a convincing account may well be the dominant position in the literature These philosophical developments run alongside changed political and social circumstances In recent years Western political systems have come under suspicion with citizens led to question traditional reasons why they should obey them Additional factors renewing interest in political obligation include the emergence of new democracies in Eastern Europe occasioned by the fall of the Soviet Union and unrest in many American cities especially over issues of racial justice This Handbook has two main foci contemporary philosophical debates about political obligation and responses to political social circumstances that raise questions about requirements to obey the law Traditional theories of obligation are addressed in a series of essays by well known authorities while additional essays canvass new approaches including the possibility of legitimate states without moral requirements to obey them and skeptical conclusions from important theorists Responses to political and social circumstances include civil disobedience and more radical approaches In addition political obligations are addressed as they bear on emerging democracies and unjust and authoritarian regimes **Lectures on the Principles of Political Obligation** Thomas Hill Green,1917 *The Duty to Obey the Law* William Atkins Edmundson,1999 The question Why should I obey the law introduces a contemporary puzzle that is as old as philosophy itself The puzzle is especially troublesome if we think of cases in which breaking the law is not otherwise wrongful and in which the chances of getting caught are negligible Philosophers from Socrates to H L A Hart have struggled to give reasoned support to the idea that we do have a general moral duty to obey the law but more recently the greater number of learned voices has expressed doubt that there is any such duty at least as traditionally conceived The thought that there is no such duty poses a challenge to our ordinary understanding of political authority and its legitimacy In what sense can political officials have a right to rule us if there is no duty to obey the laws they lay down Some thinkers concluding that a general duty to obey the law cannot be defended have gone so far as to embrace philosophical anarchism the view that the state is necessarily illegitimate Others argue that the duty to obey the law can be grounded on the idea of consent or on fairness or on other ideas such as community *The Limits of Hobbesian Contractarianism* Jody S. Kraus,2002 This book is the most comprehensive rigorous critique of contemporary Hobbesian contractarianism as expounded in the work of Jean Hampton Gregory Kavka and David Gauthier Professor Kraus argues that the attempts by these three philosophers to use Hobbes to answer current political and moral questions fail The reasons why they fail are related to fundamental problems intrinsic to Hobbesian contractarianism first the problem of collective action arising out of the tension in Hobbes theory between individual and collective rationality second the classical problem of explaining the

normative force of hypothetical action a problem that can be traced to the conflicting strategies of hypothetical justification found in Rawls and Hobbes theories Given the deep interest in Hobbesian contractarianism among philosophers political theorists game theorists in economics and political science and legal theorists this book is likely to attract wide attention and infuse new life into the contractarian debate *Political Obligation* Dudley Knowles, *Rethinking Political Obligation* D. Mokrosinska, Dorota Mokrosińska, 2012-07-31 What are the grounds for and limits to obedience to the state This book offers a fresh analysis of the debate concerning the moral obligation to obey the state develops a novel account of political obligation and provides the first detailed argument of how a theory of political obligation can apply to subjects of an unjust state

Lectures on the Principles of Political Obligation Thomas Hill Green, 1921 *Political Obligation in Its Historical Context* John Dunn, 2002-04-11 Mr Dunn addresses the central questions of political philosophy from an unusually broad variety of perspectives Constitutionalising Secession David Haljan, 2014-11-01 Constitutionalising Secession proceeds from the question What if anything does the law have to say about a secession crisis But rather than approaching secession through the optic of political or nationalist institutional accommodation this book focuses on the underpinnings to a constitutional order as a law making community underpinnings laid bare by secession pressures Relying on the corrosive effects of secession it explores the deep structure of a constitutional order and the motive forces creating and sustaining that order A core idea is that the normativity of law is best understood through a constitutional optic as an integrative associative force Constitutionalising Secession critically analyses conceptions of constitutional order implicit in the leading models of secession and takes as a leading case study the judicial and legislative response to secession in Canada The book therefore develops a concept of constitutionalism and law making associative constitutionalism to describe their deep structure as a continuing integrative process of association This model of a dynamic process of value formation can address both the association and the disassociation of constitutional systems **Contract, Culture, and Citizenship** Mark E. Button, 2010 Explores the concept of the social contract and how it shapes citizenship Argues that the modern social contract is an account of the ethical and cultural conditions upon which modern citizenship depends Provided by publisher
