Wood,1999-08-28 A major new study of Kant s ethics *The Moral Theology of Pope John Paul II* Charles E. Curran,2005-01-06 Pope John Paul II is the second longest serving pope in history and the longest serving pope of the last century His presence has thrown a long shadow across our time and his influence on Catholics and non Catholics throughout the world cannot be denied Much has been written about this pope but until now no one has provided a systematic and thorough analysis of the moral theology that underlies his moral teachings and its astonishing influence And no one is better positioned to do this than Charles E Curran widely recognized as the leading American Catholic moral theologian Curran focuses on the authoritative statements specifically the fourteen papal encyclicals the pope has written over the past twenty five years to examine how well the pope has addressed the broad issues and problems in the Church today Curran begins with a discussion of the theological presuppositions of John Paul II s moral teaching and moral theology Subsequent chapters address his theological methodology his ethical methodology and his fundamental moral theology together with his understanding of human life Finally Curran deals with the specific issues of globalization marriage conscience human acts and the many issues involved in social and sexual ethics While finding much to admire Curran is nonetheless fiercely precise in his analysis and rigorously thoughtful in his criticism of much of the methodological aspects of the pope s moral theology in his use of scripture tradition and previous hierarchical teaching in theological aspects including Christology eschatology and the validity of human sources of moral wisdom and knowledge and in anthropology the ethical model and natural law Brilliantly constructed and fearlessly argued this will be the definitive

measure of Pope John Paul II's moral theology for years to come *Critique of Practical Reason, and Other Writings in Moral Philosophy* Immanuel Kant, 1976 **British Ethical Theorists from Sidgwick to Ewing** Thomas Hurka, 2014

Examines a series of British ethical theorists from the late 19th century to the mid 20th century who shared the view that moral judgements can be objectively true have a distinctive subject matter and are known by direct insight *The Collected Writings of Thomas De Quincey* Thomas De Quincey, 1897 *Essays in Religion and Morality* William James, 1982

Essays in Religion and Morality brings together a dozen papers of varying length to these two themes so crucial to the life and thought of William James. Reflections on the two subjects permeate first James's presentation of his father's Literary Remains second his writings on human immortality and the relation between reason and faith third his two memorial pieces one on Robert Gould Shaw and the other on Emerson fourth his consideration of the energies and powers of human life and last his writings on the possibilities of peace especially as found in his famous essay *The Moral Equivalent of War*. These speeches and essays were written over a period of twenty four years. The fact that James did not collect and publish them himself in a single volume does not reflect on their intrinsic worth or on their importance in James's philosophical work since they include some of the best known and most influential of his writings. All the essays throughout their varied subject matter are consistently and characteristically Jamesian in the freshness of their attack on the problems and failings of humankind and in their steady faith in human powers.
