Exhibition organizers and venue managers must have a thorough knowledge of their customers and they must be very close to the industries they serve. We must react rapidly to their changing needs and even be ahead of the curve in providing the tools and services which they will need to successfully meet their business objectives. This book *Exhibit Marketing and Trade Show Intelligence* will assist all those in the exhibition industry to stay on top of trends and changes as we work to improve our customer's ROI and at the same time strengthen our own bottom line.

Paul Woodward, Managing Director UFI, the Global Association of the Exhibition Industry. The Exhibit and Event industry has been rapidly expanding over the past several years and offers many global opportunities for a fascinating and rewarding career. *Exhibit Marketing Trade Show Intelligence* provides those interested in a career in Exhibit and Event Management a solid foundation on how to become a valuable asset to any organization.

Jim Wurm, Executive Director Exhibit Event Marketers Association E2MA. Dr Klaus Solberg Söilen's book is a vital handbook for all marketers who work with exhibitions as a marketing tool. The book provides clear and extremely useful recommendations for actions before, under and after the exhibition has taken place.

Svend Hollensen, author of *Global Marketing*, Pearson and Associate Professor of International Marketing at the University of Southern Denmark. Hands-On Exhibitions Tim Caulton, 2006-04-14

The development of interactive displays has transformed the traditional museum world in the last decade. Visitors are no longer satisfied by simply gazing at worthy displays in glass cases; they expect to have hands-on experience of the objects and be actively involved with the exhibits, learning informally and being entertained simultaneously. Hands-on museums and science centres provide the most remarkable example of how museums are redefining their roles in society, improving access to real objects and real phenomena so that they can be enjoyed by more people.

In recent years, museums have been thrust into intense competition for the public's time and money with all branches of the leisure industry, from commercial theme parks to retail shopping and home entertainment. This has upset the traditional stability of the museum and their visitors. A hands-on approach encourages a broader visitor base which in turn helps to bring in additional revenue at a time of declining public subsidy.

Tim Caulton investigates how to create and operate effective exhibitions which achieve their educational objectives through hands-on access. He concludes that the continuing success of hands-on museums and science centres hinges on attaining the very best practice in exhibition design and evaluation and in all aspects of operations, including marketing and financial and human resource management. *Hands On Exhibitions* provides a practical guide to best practice which will be indispensable to all museum professionals and students of museum studies.
