Extensive Reading in the Second Language Classroom Richard R. Day,Julian Bamford,1998-01-13 This comprehensive examination of extensive reading shows how reading large quantities of books and other materials can provide students with essential practice in learning to read and help them develop a positive attitude towards reading which is sometimes missed in second language classes The authors first examine the cognitive and affective nature of reading and then offer a wealth of practical advice for implementing extensive reading with second language learners Suggestions are provided for integrating extensive reading into the curriculum establishing a library selecting reading materials and keeping records for purposes of evaluation The text also describes a wide variety of classroom activities to supplement individualized silent reading The information will be useful both for pre service teachers and for teachers and administrators who want to improve the teaching of reading in their second language programs **Marriage, Religion and Society** Giri Raj Gupta,2023-07-05 Originally published in 1974 the conclusions of the book are based on intensive field work during 1963 66 in a village in south east Rajasthan India Although the marriages of 158 boys and 163 girls were studied the relevance of the conclusions drawn extends far beyond the village and its region since it reveals the changing themes and values in Indian society at the time The perceptive analysis of rites and ceremonies of marriage further illuminates the central problem of the book how the themes of the Dharmasastras are interpreted and acted upon in village life and what kinds of reinforcements and incentives to change they provide to the various units of social structure The author contends that the series of marriage rites manifest the continuity of tradition a ritual epitomisation of caste interdependence and means of systematic social advancement At the time ritual idioms and patterns of social exchange were beginning to change more often in observance than in content Traditional sources of status aggrandisement continued to provide new pathways to the forces of modernisation and unveil
