### **Pri Science 3 Tb Sierra Leone:**

**International Education** Daniel Ness, Chia-Ling Lin, 2015-03-17 This encyclopedia is the most current and exhaustive reference available on international education. It provides thorough up to date coverage of key topics, concepts and issues as well as in depth studies of approximately 180 national educational systems throughout the world. Articles examine education broadly and at all levels from primary grades through higher education, formal to informal education, country studies to global organizations. *Resources in Education*, 1992 Serves as an index to Eric reports, microform. *Pregnant in the Time of Ebola* David A. Schwartz, Julienne Ngoundoung Anoko, Sharon A. Abramowitz, 2019-01-02 This comprehensive account of the deadliest Ebola outbreak in history examines its devastating effects on West Africa's most vulnerable populations: pregnant women and children. Noted experts across disciplines assess health care systems' responses to the epidemic in Liberia, Guinea and Sierra Leone, emphasizing key areas such as pregnancy, prenatal services, childbirth, neonatal care and survivor health among pregnant and non pregnant women. The 30 chapters hone in on gender based social issues exacerbated during the outbreak, from violence against women and girls to barriers to female education. At the same time, chapters pinpoint numerous areas for service delivery and policy improvements for more coordinated, effective and humane actions during future pandemics. A sampling of the topics: Ebola virus disease, perinatal transmission and epidemiology, Comprehensive clinical care for children with Ebola virus disease, Maternal and reproductive rights, Ebola and the law in Liberia, Ebola related complications for maternal, newborn and child health service delivery and utilization in Guinea, The Ebola epidemic halted female genital cutting in Sierra Leone temporarily, Maternity care for Ebola at Médecins Sans Frontières centers, Stigmatization of pregnant women with and without Ebola, Exclusion of women and infants from Ebola treatment trials, Role of midwives during the Ebola epidemic. *Pregnant in the Time of Ebola* is a powerful resource for public health specialists, anthropologists, social scientists, physicians, epidemiologists, nurses, midwives and governmental and non governmental agency staff studying the effects of the epidemic on women and children as a result of the most widespread Ebola outbreak to date.

*The Health of Nations* Andrew T. Price-Smith, 2001-09-28 In recent decades, new pathogens such as HIV, the Ebola virus and the BSE prion have emerged, while old scourges such as tuberculosis, cholera and malaria have grown increasingly resistant to treatment. The global spread of disease does not threaten the human species, but it threatens the prosperity and stability of human societies. In this pathbreaking book, Andrew Price Smith investigates the influence of infectious disease on nations' stability and prosperity. He also provides a theoretical and empirical foundation for the emerging field of health security. Price Smith shows that the global proliferation of infectious disease will limit the ability of states to govern themselves effectively and to maximize their economic power. Because infectious disease can cause poverty, intra state violence and political instability may increase. This in turn may have negative long term effects on regional economic and political stability, damaging international relations and development. Price Smith takes an interdisciplinary approach to topics

ranging from the effects of global environmental change on the spread of disease to the feedback loop between public health and the strength of a nation's economy and its political stability over time. As the proliferation of infectious disease threatens international stability and the policy interests of the United States in years to come, its study will become an increasingly important subfield of political science.
