Primitive Wilderness Skills, Applied and Advanced John McPherson, 1996-11 "How-to" Build This Log Cabin for \$3,000 John McPherson, 1999 *Paleofalconry* Craig Perdue, 2012 When Disaster Strikes Matthew Stein, 2011-11-16

Disasters often strike without warning and leave a trail of destruction in their wake. Yet armed with the right tools and information, survivors can fend for themselves and get through even the toughest circumstances. Matthew Stein's *When Disaster Strikes* provides a thorough practical guide for how to prepare for and react in many of life's most unpredictable scenarios. In this disaster preparedness manual, he outlines the materials you'll need from food and water to shelter and energy to first aid and survival skills to help you safely live through the worst. *When Disaster Strikes* covers how to find and store food, water, and clothing, as well as the basics of installing back-up power and lights. You'll learn how to gather and sterilize water, build a fire, treat injuries in an emergency, and use alternative medical sources when conventional ones are unavailable. Stein instructs you on the smartest responses to natural disasters such as fires, earthquakes, hurricanes, and floods; how to keep warm during winter storms; even how to protect yourself from attack or other dangerous situations. With this comprehensive guide in hand, you can be sure to respond quickly, correctly, and confidently when a crisis threatens.

Primitive Wilderness Living and Survival Skills John McPherson, Geri McPherson, 1993

For those who have been accustomed to reading books on wilderness skills that entertain but fall short of actually teaching you how to accomplish the tasks and skills at hand, this book is a pleasant surprise. Written for those who wish to actually head into the wilderness and practice the skills of our ancestors, *Primitive Wilderness Living and Survival Skills* is a compilation of ten booklets written over the course of seven years. Each chapter is a complete, concise "how-to" in itself. Unlike many who have written on this subject in the past, John and Geri McPherson have spent years daily practicing these skills, perfecting methods through trial and error, and documenting it. This vast knowledge is passed on to the reader. Illustrated with over 700 photographs crammed into 400 pages, this massive work is not a rehashing and perpetuation of myths. These are tried and true methods of primitive wilderness living and survival skills. *Field and Stream* says, "The McPhersons' book deals with taking flat, nothing into boondocks and staying for a long period of time. If you'd like to know how to make a spear thrower or pottery or brain cure deer hides or build a permanent shelter from what you find at hand, here is the place to learn. And Sports Afield, full of practical, tested advice for living off the land. Also the Museum of the Fur Trade. This is without doubt the best raining guide for eral primitive living skills.
