Principal Defence:

The Life of General Washington, Comander in Chief of the American Forces John Marshall, 1840 *The Authorised History of British Defence Economic Intelligence* Peter Davies, 2018-06-27 This book is the first history of UK economic intelligence and offers a new perspective on the evolution of Britain's national intelligence machinery and how it worked during the Cold War. British economic intelligence has a longer pedigree than the Joint Intelligence Committee (JIC) and was the vanguard of intelligence coordination in Whitehall, yet it remains a missing field in intelligence studies. This book is the first history of this core government capability and shows how central it was to the post-war evolution of Whitehall's national intelligence machinery. It places special emphasis on the Joint Intelligence Bureau and Defence Intelligence Staff, two vital organisations in the Ministry of Defence underpinning the whole Whitehall intelligence edifice but almost totally ignored by historians. Intelligence in Whitehall was not conducted in a parallel universe. This contrasts with the conventional wisdom which accepts the uniqueness of intelligence as a government activity and is symbolised by the historical profile of the JIC. The study draws on the official archives to show that the mantra of the existence of a semi-autonomous UK intelligence community cannot be sustained against the historical evidence of government departments using the machinery of government to advance their traditional priorities. Rivalries within and between agencies and departments and their determination to resist any central encroachment on their authority emasculated a truly professional multi-skilled capability in Whitehall at the very moment when it was needed to address emerging global economic issues. This book will be of much interest to students of British government and politics, intelligence studies, defence studies, security studies and international relations in general.

Total Security Management Pradeep Bajaj, 2022-10-18 This book is the ultimate treatise for the Security professionals up to senior manager level. It has been aligned with Private Security Agencies Regulation Act 2005 Model Rules thereof and National Occupation Standards for FOUR out of EIGHT Job Roles as identified Indian Sector Skill Council. These job roles comply with the NSQF guidelines as such listed in National Qualification Register. These job roles are a) MEPQ7101 Unarmed Security Guard b) MEPQ7102 Armed Security Guard c) MEPQ7103 Personal Security Officer d) MEPQ7201 Security Supervisor. Consolidation of the four job roles was possible due to many common elements and Occupation Standards. The resultant product is economical and makes it suitable for the security staff employed in these four job roles. The book packs requisite knowledge and experience for Senior Managers/Supervisors to manage, supervise and mentor their staff and Trainers to learn and train. The National Occupation Standards and legal aspects having a bearing on the private security sector have been the focus during development of its unique discourse. The book covers the training needs of approx 75% of the personnel employed in Commercial and Industrial Security Sector. Performance Criteria and Knowledge Elements in the Qualification Pack and KLOs in Model Curriculums are global in nature as such as relevant globally with exception of statutory aspects.

The Life of George Washington, Commander in Chief of the American

Forces, During the War which Established the Independance of His Country John Marshall,1832 *The Criminal Responsibility of Senior Political and Military Leaders as Principals to International Crimes* Héctor Olásolo,2009-05-15 As shown by the trials of Slobodan Milosevic Charles Taylor and Saddam Hussein the large scale and systematic commission of international crimes is usually planned and set in motion by senior political and military leaders Nevertheless the application of traditional forms of criminal liability leads to the conclusion that they are mere accessories to such crimes This does not reflect their central role and often results in a punishment which is inappropriately low in view of the impact of their actions and omissions For these reasons international criminal law has placed special emphasis on the development of concepts such as control of the crime and joint criminal enterprise also known as the common purpose doctrine which aim at reflecting better the central role played by senior political and military leaders in campaigns of large scale and systematic commission of international crimes The Rome Statute of the International Criminal Court and the case law of the ICTY and the ICTR have in recent years played a unique role in the achievement of this goal

The Life of General Washington, Commander in Chief of the American Forces John Marshall,1846 **The Economics of Defense Industry** Thomas-Durell Young,2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis
